Maths, English and digital skills 4

Task 1.1 – Research

Review the Project Brief document before you commence the research task. As a new member of the team, your manager has asked you to carry out research and provide feedback on the conservation of heritage buildings.

Your research should include:

- The principles and associated legislation in relation to conservation of listed buildings.
- Considerations relating to restoration, reinstatement, materials and techniques required for projects of this nature, and the risks and hazards associated with their use.
- An investigation of typical costs per square metre to calculate the overall cost to rake out and repoint the front wall.

Remember to keep a record of the different sources you have used, as you will need to submit this work for assessment. It is essential that you check the contents of the legislation referred to in this task.

You should collate your research notes and findings together so you can reference them as part of the next stages in this project. It is likely your research findings will be approximately three sides of A4.

Timing of assessment

You will have **three hours** to conduct your research.

Conditions of assessment

Your research must be completed independently and working alone under supervised conditions.

You will have access to the internet to conduct your research.

What you must submit on completion of this research task

- Research notes (approximately three sides of A4)
- Record of sources

Submitted as a hard copy or file saved securely as directed by your tutor/supervisor. You must ensure your work is saved as outlined in the ‘Presentation of work’ section of the Candidate Guidance document.

Additional evidence of your performance that will be captured for marking

N/A

Maths, English and digital skills

Through completion of this task, you will have the opportunity to generate evidence of your digital skills.
