

T-LEVELS

T Level transition programme

Engineering and Manufacturing offer:

High quality route into the Engineering and Manufacturing T Levels

Provide learners with work placement preparation

Level 2 study programme which is made up of Knowledge, Skills and Behaviours (KSBs)

Age range 16-19 and up to 24 (EHC plan)

Key principles:

- Provide relevant preparation for what learners will experience on the T Levels with opportunities to interact with employers
- Develop KSBs in the Engineering and Manufacturing sector
- Provide development goals via pastoral support
- Provide a holistic approach to develop KSBs via different methods to reinforce learner development/ T Level preparation
- Help learners make the correct decision after completion, whether it's a T Level or alternative destination.
- Development & Enrichment
