

Welcome to the final e-bulletin update for this academic year!

For those of you who are reaching the end of your first academic delivery, well done for reaching this milestone! For those about to embark on the first year of delivery, we thank you for your engagement with us throughout the 12-month countdown. And for those about to embark on the 12-month countdown for first delivery in September 2023, we look forward to engaging with you on preparing for first teaching.

As normal, this summer addition of the e-bulletin is packed with useful information and reminders for everything to support the preparation to deliver, or the delivery of, your specific T Levels. You can jump right into a particular sector for more details but do please remember to read the general updates section to find out what is going on across T Levels, and to hear about all the organisations who are involved in T Levels and what they are doing to support providers.

This quarter's highlights:

Provider approval process

Building Services Engineering & Onsite Construction

Please ensure your advisory activity has taken place for the 2021 academic year. This will enable your Technical Qualification Advisor (TQA) to continue to support you through delivery. You can contact technical.quality@cityandguilds.com if you have any queries regarding your advisory activity.

Management and Administration & Engineering and Manufacturing

From Friday 24th June the approval window for September 2022 delivery will have closed. Approval activities will still be occurring, and providers may still be in contact with the Quality Team and their TQAs.

Please can Providers ensure all approval documents we provide are read, to check you have received approval for all the (Technical Qualifications (TQs) you applied for. Please also check the TL-A1R and/or TL-A2R to ensure you address any action points. Your TQA will be following up on these actions in preparation for starting delivery.

For more information we recommend you visit our [T Level Resource Hub](#) for approval and quality assurance support, contact update forms and curriculum planning materials.

Tutor resources update

Tutor resources will be available for the core content of Management and Administration, and Engineering and Manufacturing by the end of August. Material will be made available as soon as it is ready, so content for some underpinning knowledge outcomes will appear on the website from July onwards. Please check the tutor resources section of the [Resource Hub](#) regularly.

Resources will be as follows:

- **Schemes of work** to help tutors plan teaching sessions.
- **PowerPoints** that tutors can use to present key knowledge to learners.
- **Worksheets** with various activities that tutors can use to engage learners in and out of the classroom.
- **Multiple choice question sheets** to check learners' understanding of what has been taught in each session.

The resources will be editable, so tutors can adapt them according to their individual teaching requirements.

Assessment update

Summer assessment results

We'll be making detailed 'Results Slips' available to access from the [Walled Garden](#) on **Wednesday 17 August 2022**. These will provide raw marks, UMS and grades (where applicable) for those candidates that have taken the summer Core assessments in Building Services Engineering (8710) and Onsite Construction (8711). We will also provide guidance on how to access and use them.

Results must not be released to candidates until Thursday 18 August 2022

Key dates schedules for 2022-23 & 2023-24

Thank you for those that provided feedback as part of the key-dates consultation. We have now published the key dates dates schedules for the 2022-23 and 2023-24 academic years for the T Level TQs.

These include registration, booking and assessment windows (including exam dates) along with results and post-results dates. We have also published a response to the consultation feedback. These can be found on the [Resource Hub](#) under 'Teaching, learning and planning resources'.

T Level TQ Key Dates

[Building Services Engineering for Construction \(8710\)](#)

[Onsite Construction \(8711\)](#)

[Maintenance, Installation and Repair for Engineering and Manufacturing \(8712\)](#)

[Engineering, Manufacturing, Processing and Control \(8713\)](#)

[Design and Development for Engineering and Manufacturing \(8714\)](#)

[Management and Administration \(8715\)](#)

1st September 2022

The registration window opens on 1st September 2022 for the below T Level TQs:

- Building Services Engineering for Construction (8710)
- Onsite Construction (8711)
- Maintenance, Installation and Repair for Engineering and Manufacturing (8712)
- Engineering, Manufacturing, Processing and Control (8713)
- Design and Development for Engineering and Manufacturing (8714)
- Management and Administration (8715)

The booking window for the autumn Core assessments and summer Occupational Specialisms also opens on 1st September 2022 for:

- Building Services Engineering for Construction (8710)
- Onsite Construction (8711)

Click the links below to read more about each of the following areas:

Onsite Construction and Building Services Engineering

Supporting providers

The Onsite Construction & Building Services Engineering Team, including Rob, Paul, Jason, Alison and Mike have been busy providing support to in-delivery and pre-delivery centres over the last 12 months. If you missed any of the webinars, they are available to download from the [Events and Webinars](#) page on our website.

→ [READ MORE](#)

Management and Administration

Events and webinars

The Technical Advisers (TAs) Dom and Karen have been travelling around the country offering network events to help prepare approved centres for delivery from September 2022. These have been generic T Level discussions so far, however in the autumn events they will start to focus on the assessments for the Technical Qualification (TQ)

→ [READ MORE](#)

Engineering and Manufacturing

Supporting providers

Our Technical Advisers (TAs) Sam and Jono have been travelling around the country offering network events and supportive training sessions for both T Level transition programmes and T Levels in Engineering & Manufacturing. These sessions are there to help prepare approved centres for delivery starting September 2022 and pre-delivery centres due to start delivering in September 2023.

Land-based Services

Supporting providers

We continue to engage with providers and the Technical Advisor (TA) for Land, Anne Rogers, has started to visit centres with advice and guidance on the T Level. Content review workshops and provider validation sessions are ongoing and will continue through the next couple of months - look out for email alerts and invites if you have signed up to help with the development of the qualification.

General Updates:

T Level transition programmes

T Level transition programme frameworks have been updated across all subject areas. Follow the links below for the relevant T Level subject areas:

- [Construction](#)
- [Engineering and Manufacturing](#)
- [Education and Childcare](#)
- [Digital](#)

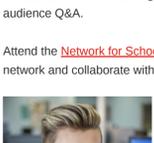

HE update

To support students, schools and colleges with understanding options for progression into higher education from T Levels, the DfE have produced a list of higher education providers that have confirmed that they will consider T Levels for entry onto at least one course at their institution. This list is not exhaustive, and there are likely to be differing entry requirements for different providers and courses. Please see link to document [here](#)

Education and Training Foundation (ETF) | Supporting you to become T Level ready

The ETF is inviting schools to take part in a series of T Level professional development activities. You can hear about the experiences of others who are already on their T Level journey by signing up to the [Learning From event for schools](#), on 5th July 2022. Topics that will be discussed include curriculum modelling, assessment and industry placements. This will be followed by an audience Q&A.

Attend the [Network for Schools and Sixth Forms](#), on 15 July 2022, which provides the opportunity to network and collaborate with others working on the development and delivery of T Levels.

Apply for the next [T Level Leadership Mentoring Programme](#) to develop wider leadership skills through coaching and reflection. The programme provides a confidential, neutral and objective space to explore challenges with a specialist mentor. The next cohort starts in autumn 2022. Apply by 31st August 2022.

These activities are part of the ETF's [T Level Professional Development \(TLPD\) offer](#), which has been developed by experts and with learning providers and employers. Funded by the Department for Education (DfE), the TLPD offer is suitable for all providers delivering or preparing to deliver T Levels and supports leaders, governors, managers, teachers and trainers.

Watch the latest [film](#) to find out how to make the most of the TLPD offer. Keep up to date on the latest developments via our [news, updates and podcasts](#).

T Levels Celebration Week 4-8 July 2022

Throughout the week of 4-8th July, the DfE, awarding organisations and providers will be celebrating the first cohort of learners finishing their T Level courses.

During this week, we would like to take the opportunity to mark the end of the first year of T Levels for many learners and celebrate the support and hard work of providers!

If you'd like to get involved, please use the [#TLevelsCelebrations](#) and tag us [@City&Guilds](#) in any of your posts across your social channels.

Stay on track

Remember to provide us with the correct details for all colleagues involved in the T Level delivery. Simply click on the relevant button below and we'll keep you up to date:

[Update my email preferences](#) [Sign-up for T Level updates](#)

Please share this e-bulletin with your colleagues delivering or interested in T Levels. Thank you for taking the time to read our T Level e-bulletin and please stay safe and well.

Best wishes,
T Level team
