Level 1 Multimedia software (MM 7574-124)

Assignment A

Candidate instructions

Time allowance: One and a half hours

The assignment:

This assignment is made up of **four** tasks

- Task A - Plan and research a four page/screen product
(Candidates may use the example Product Plan in candidate instructions –MM Product Plan)
- Task B - Create the product
- Task C - Review and amend the product
- Task D - Demonstrate the product

Note: Task A should be completed prior to the assignment. No time restriction is given for Task A. The time allowance is for Tasks B to D.

Scenario

You work as publicity assistant for a local event management company.

You have been asked to produce a multimedia product to promote a charity concert that is to be held next month. The concert will feature local bands covering a range of music.

You will need to plan and create a four-screen/page product. You should plan the product to include:

- An introductory page
- Details of two featured bands including images, text, video and sound as required
- A map of the location for the concert with your contact details.

The client has specified that the images may be still or moving and that some sound is included during playback. The user must be able to control the product by the use of playback controls.

Read all of the instructions carefully and complete the tasks in the order given.

Task A – Plan the multimedia presentation

- 1 Based upon the scenario create a Product Plan (example attached). Identify the client's main requirements including the outcome and the intended audience.

You should also identify the display device that will be used to present the finished product.

- 2 View the files provided by your assessor. If you would like to use them for your product then you can. However, if you would like to source your own then you may do so.

- 3 You will need to source a sound file.

- 4 Using your Product Plan, for each multimedia element you plan to include in your final product identify and acknowledge:

- any sources you plan to use
- any copyright issues that may apply.

- 5 On your Product Plan, identify **two** file formats that you intend to use and the storage media to be used to save the final product.

6

Task B – Create multimedia presentation

- 1 In your work area create a folder, using the file name **MM1**.

- 2 Copy the files provided by your assessor and any files you have sourced yourself into the folder **MM1**.

- 3 Using your chosen software, combine the multimedia content to produce the product identified in your Product Plan.

- 4 Save your product with the name **Charity Concert** in a format suitable for your playback device.

Continued over...

5 Check your finished product, making any amendments as necessary:

- all text proofread and checked for spelling errors.
- all images/videos are fully displayed.
- timings are suitable.
- content is readable.
- sound works as intended.

Resave your product if required.

Task C – Check and present multimedia presentation

- 1 You need to check your multimedia product to make sure it has met the client's requirements.
- 2 Make any corrections to your plan to make sure it is the same as your finished product.

Task D – Task D - Demonstrate the product

- 1 Demonstrate to your assessor your final product including:
 - playback of the product
 - adjusting the display settings to meet needs.

When you have finished working:

- Sign each document above your name and label all removable storage media with your name.
- Hand all paperwork and removable storage media to your assessor.

If the assignment is taken over more than one period, all paperwork and removable media must be returned to the test supervisor at the end of each sitting.
