

## Unit 207: Food safety

### Activity 8: Hazard awareness

---

A food hazard is anything that may cause harm to people who eat the food. When working in a kitchen it is essential to be aware of situations that may lead to a food hygiene problem.

Consider the list of hazards below and explain what risk they pose

Hazard	Risk
Dirty hands	
Food handler sneezing	
Outdoor clothing	
Septic facial spots	
Food handler wearing jewellery	
A heavy cold	
Dirty serving utensils	
A bowl of cooked rice left in warm kitchen	
Chipped mixing bowl
