

Engineering Council examinations

Examination publications price list/order form

Please ensure that your name and full address are entered on the order form and that the correct remittance is enclosed before posting. Invoices cannot be provided. Payments must be in pounds sterling, made by cheque (payable on U.K. bank), British postal orders (payable U.K.), international money orders or banker's draft (payable on U.K. bank), made payable to 'City & Guilds'. Alternatively you may pay by MasterCard or Visa using the credit card mandate attached.

Publications will be despatched by 2nd class mail or airmail as appropriate. Please allow four weeks for despatch of publications.

Please note that unit numbers and syllabuses were revised for the May 2002 examination and therefore no past papers bearing the new numbers are available until May 2002. However, if you refer to the unit title you will find the nearest equivalent past papers in previous years. You are advised to cross reference with the appropriate current syllabuses to check that syllabus content remains relevant. **No past papers are available from May 2006** as we will no longer publish them. The past question papers will eventually be replaced by specimen question papers.

Part 1 and Part 2 question papers (photocopied) for examinations held from 1997-2001 are also available priced £4.00 per paper. If you wish to purchase any of these papers please use the attached form. **Purchase of these papers may extend the delivery time by at least one week.**

Please note that Engineering Council examinations at City & Guilds does **not** publish model answers or solutions to past question papers, but guidance may be found in the Reports on the results by Moderators and Chief examiners.
