

NEWCASTLE COLLEGE

ACCREDITATION CASE STUDY

THE DEVELOPMENT OF A BESPOKE INTERNATIONAL PROGRAMME

THE CHALLENGE

Newcastle College were asked to develop a bespoke engineering programme for an international engineering firm in collaboration with the Nigerian Government, to be delivered from their base in the UAE.

THE SOLUTION

Newcastle College chose to work with City & Guilds on this project specifically because of their vocational focus. The City & Guilds Accreditation supported Newcastle College in gaining an internationally recognised mark of quality that underpinned the vocational vigour of the programme.

“The City & Guilds Quality Consultant provided clear and constructive feedback in the development phase of the programme and we reaped the rewards of this when the programme was developed.” Ummar Youssaf, International Development Manager, Newcastle College

THE RESULT

The project was hugely successful with 100% student achievement. The success of this accredited programme has led to Newcastle College look at other business opportunities where City and Guilds Accreditation will add substantial value.
