

Construction - Qualifications offer

The following City & Guilds qualifications have been approved for delivery as part of the modern apprenticeship frameworks in Construction Building at SCQF Level 6.

What support materials are available?

At City & Guilds, part of our promise is to support you and your learners to succeed by providing you with a comprehensive level of support, ensuring you have the advice, guidance and resources you need to deliver the best possible experience for your learners.

For more information visit our website at: cityandguilds.com/smartscreen

How are the qualifications quality assured?

Our approach to quality assurance is designed to support your centre in upholding our rigorous quality standards, by assigning a subject matter expert called an 'External Quality Assurer' (EQA).

Our EQAs are from industry and are trained to offer advice and guidance around the delivery of qualifications. As well as being our guardian for quality, EQAs also act as mentors and provide recommendations on how your centre can continue to meet our quality requirements.

About City & Guilds

We put quality and learning at the heart of our modern apprenticeship training and education - City & Guilds is a name you can trust.

City & Guilds works with governments, employers, colleges and training providers to deliver workplace-relevant qualifications, recognitions, certification and assessment.

City & Guilds' qualifications are valued by employers and learners across the world as they help people into a job, develop on the job and move into the next job.

Contact us

Our local customer service team and expert consultants will be on hand to support you at every stage and will give you more information about our modern apprenticeships.
