## **About City & Guilds**

City & Guilds is a global leader in skills development. Over one million people earn a City & Guilds qualification every year, providing them with the skills they need to thrive in the workplace.

Our focus today is the same as it has always been: to help people into a job, develop on the job and move on to the next job. We work closely with employers across the world to make sure that our products and services are industry relevant. We offer qualifications across 26 industries at all levels, from entry level to the equivalent of a postgraduate degree offering clear pathways to career progression.

In the global economy, the ability to compete depends on building a skilled, competent, and confident workforce. We understand the value of portable skills and globally recognised standards that enable people and organisations to succeed. We partner with governments, employers, and educators in over 50 countries, across five continents, to advise them on developing high-quality skills training that meets the needs of the global workforce, without compromising local demands.

City & Guilds is a City & Guilds Group Business. All City & Guilds qualifications are awarded by The City and Guilds of London Institute, which was founded in 1878 and is incorporated by Royal Charter.
