Dear Colleague

As the Issuing Authority for Construction Apprenticeship Frameworks I would like to start giving you notification of when frameworks or pathways are being closed to registration for candidates.

Pathway withdrawal for Carpentry and Joinery. Could I ask that you send the following information out to your centres?

The new Standard for Carpentry and Joinery at Level 2 (£12k funding band) is available as from September 2018, this covers Site Carpentry and Architectural Joinery.

The Framework pathway for Site Carpentry and Bench Joinery at Intermediate (Level 2) will close for registrations on the 31st December 2018

The new Standard for Advanced Carpentry and Joinery at Level 3 (£9k funding band) is available as from September 2018 and this covers Site Carpentry and Architectural Joinery.

The framework pathway for Site Carpentry and Bench Joinery at Advanced (Level 3) will close for registrations on the 31st December 2018.

I will keep you informed of other framework pathways that are being closed to registrations as they are identified.

Yours sincerely

Neil
