& Technical Education

CO2 emissions

CO2 is one of the greenhouse gases that absorbs radiation and prevents heat from escaping our atmosphere. This creates disrupted weather patterns and other changes in the climate.

Construction and Building Service Engineering

We are excited to be offering our first T Level Technical Qualifications (TQs) from September 2021.

City & Guilds is a global leader in skills development, providing services to training providers, employers, and trainees across a variety of sectors to meet the needs of today's workplace. Our qualifications and apprenticeships are valued by employers across the world, helping young people develop their talents.

In collaboration with Excellence Achievement and Learning (EAL), we will be offering the following TQs which will only be available in England.

[8710 T Level Technical Qualification in Building Services Engineering for Construction >](#)

[8711 T Level Technical Qualification in Onsite Construction >](#)

T-LEVELS
THE NEXT LEVEL QUALIFICATION

T LEVELS

→ Employers

→ Providers

→ Business and Administration

→ Construction and BSE

These will be available for free from our website from August.

If you would like to access some sample materials please email

construction@cityandguilds.com or

Resources- Supporting delivery with Hodder Education

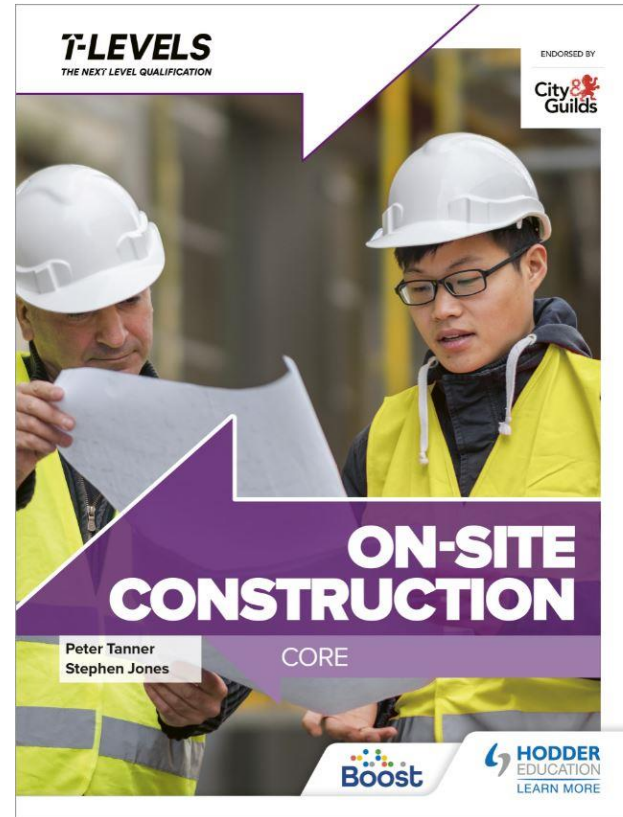

Hodder Education Resources

Publishing details for the two books are as follows:

- Building Services Engineering for Construction T Level: Core (9781398332874, Spring 2022, 416 pp, £34)
- On-site Construction T Level: Core (9781398332904, Spring 2022, 320 pp, £34)

Mapping grids- Current Hodder trade text books to Occupational Specialisms. Accessed here.

Hodder T Level webpage- <https://protect-eu.mimecast.com/s/38AICg5R8iPWPDriNmWsj?domain=hoddereducation.co.uk>

Further resources & information

We have a bank of resources available on our dedicated T levels web page. This includes all the latest information on the TQs we offer, plus information for employers and providers, how to get involved in TQ development, and a range of support webinars.

This is also where you will find the TQ specifications (qualification handbooks)

For Construction and BSE, make sure your delivery staff are booked on to one of our upcoming familiarisation webinars.

T Level Familiarisation Webinar – Construction and BSE

Date: Wednesday, 25 November 2020

Time: 12.30 – 1.30 GMT

The next level qualifications

We are delighted to announce that the Institute for Apprenticeships and Technical Education (IfATE) and the Department for Education (DfE) has awarded City & Guilds to be the delivery partner for new T level technical qualifications (TQs) in Engineering and Manufacturing, and Management and Administration, from September 2022.

In collaboration with the specialist engineering awarding organisation, [Excellence Achievement and Learning \(EAL\)](#), we will develop and deliver three Engineering and Manufacturing T Level TQs. This follows on from last year's successful partnership to start delivering Construction qualifications in Wales, and the T Level in Construction: Building Services Engineering from September 2021.

In addition, by using the experience and expertise from our leadership and management business, ILM, we will be developing the new Business and Administration T Level TQ.
