

Engineering and Manufacturing

High quality route into the Engineering and Manufacturing T Levels

Provide learners with work placement preparation

Level 2 study programme which is made up of Knowledge, Skills and Behaviours (KSBs)

Age range 16-19 and up to 24 (EHC plan)

Key principles:

- Provide relevant preparation for what learners will experience on the T Levels with opportunities to interact with employers
- Develop KSBs for the engineering and manufacturing sector
- Provide development goals via pastoral support
- Provide a holistic approach to develop KSBs via different methods to reinforce learner development/ T Level preparation
- Help learners make the correct decision after completion, whether it's a T Level or alternative destination
- Development and enrichment

Qualification	Qualification Number	Qualification	Guided Learning Hours (GLH)
Diagnostic and guidance	Providers to deliver: To assess learners' capability and support needs in order to tailor this foundation year to address these needs. Help learners decide which T Level route they want to prepare for.		
GCSE	Providers to deliver	Providers to deliver	GCSE 130 GLH
Functional Skills: Maths, English and Digital (Current funding rules apply to centres wishing to deliver FS)	4748-04 4748-02 4748-06	Level 2 Maths Level 2 English Level 1 Digital Functional Skills	55 GLH 55 GLH 55 GLH
Technical skills	2145-12	Level 2 Technical Occupational Entry in Engineering	360 GLH
Work experience and preparation and pastoral support	5546-04 5546-04	Level 2 Certificate in Employability Skills Level 1 Certificate in Employability Skills	85 GLH 77 GLH
