Carpentry & Joinery- Discussion

Following feedback from our providers, consultants and employers a lot of concern has been raised around Carpentry & Joinery being combined for delivery and assessment, when they are technically two different trade occupations. Therefore we have produced a very short survey to gain further feedback that we can present to IfATE for consideration of splitting Carpentry & Joinery, either entirely or for assessment.

Your opinion and feedback is very important. Therefore would you please follow the link below or scan the QR code to complete the survey-

Please feel free to pass this survey link onto any Carpentry & Joinery colleagues and employers.
