## **T-LEVELS**

# T Levels 12-month countdown timeline

City & Guilds and EAL are developing the T Level technical qualifications (TQs) for Building Services Engineering and On-Site Construction, which will be available for first teaching from September 2021.

Learn more at cityandguilds.com/tlevels

### Next level skills for next level jobs

T Levels are a two year programme following on from GCSEs or a level 2 study programme, aimed at 16 to 18-year-old learners. They will combine classroom learning and an extended industry placement (of at least 45 days) together on a qualification designed with businesses and employers.

#### About this document

We have put together a list of useful activities to help you prepare ahead for the TQs first teaching in September 2021. Please refer to the timeline of activities to ensure that you have everything in place and are ready to hit the ground running.

#### Qualifications

T Level Technical Qualification in Building Services Engineering (Level 3) 8710-30

T Level Technical Qualification in On-Site Construction (Level 3) 8710-31

#### Keep up-to-date

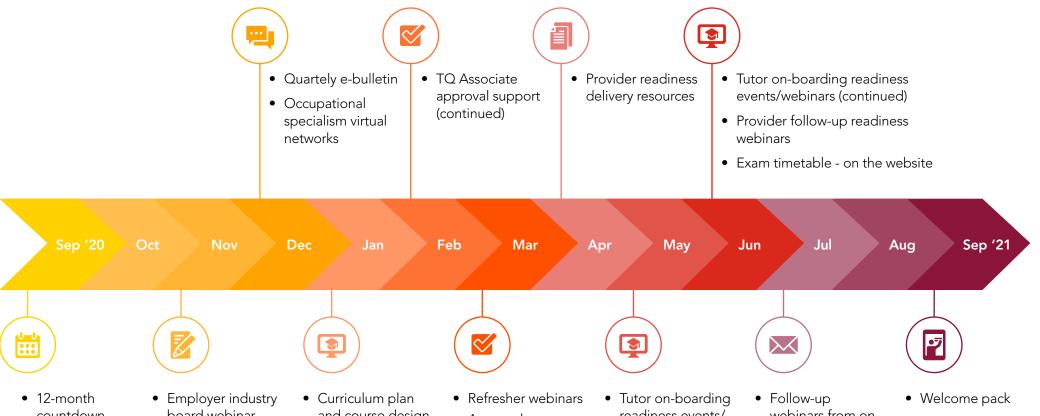

You will find all the latest information from City & Guilds/EAL about these new technical qualifications on our dedicated website cityandguilds.com/tlevels

To ensure you're signed up for email updates, visit **cityandguilds.com/tlevels/sign-up** to sign up.
