

Update 2 for Centres delivering Level 3 Tech level qualifications this academic year with learners due to complete this summer 2018

Following on from our last update in March, where we informed you of the notification from the Department for Education (DfE) and Ofqual regarding arrangements for the external assessments for Tech levels and Applied General qualifications.

We're pleased to confirm the following improvements:

- we will review their exam results and include those results that are within a tolerance of marks below the pass mark as having achieved the component
- the tolerance will be confirmed during our awarding processes this summer
- the exam result for learners that this applies to will be issued as a pass and allow a qualification grade to be awarded for these learners.

Note: This will only apply to learners completing in summer 2018 and not retrospectively.

To be able to apply the 'safety net' and include the outcomes in your final results that are published on the Walled Garden in August 2018, you must have submitted your results for all internally assessed components and employer involvement by 15 June 2018.

We are seeking clarification from DfE in regards to applying a 'safety net' in future years.
