

Technical Qualifications

How to make assessment entries

Introduction

This guide provides you with all the information you need when booking assessment components for City & Guilds Technical Qualifications:

- Synoptic assignments
- Centre assessed components (optional and mandatory units)
- Employer Involvement (EI), for Key Stage 5 (KS5 only)
- Paper based Dated Entry theory exams

Before making assessment entries, you must ensure you have registered the candidates for the Technical Qualification. The process for making candidate registrations is outlined in the [Walled Garden Guide](#).

It is important that an assessment entry is made for every candidate against all relevant components for the Technical Qualification in the year they will be taken.

All entries and registrations must be placed within the relevant time frames, as outlined in the Delivery Timeline and Calendar on the [Technicals Resource and Support Hub](#).

Late and very late entry fees

The entry periods consist of a standard entry window, a late entry window, and a very late entry window. Entries made in the late entry window will incur late entry fees. The same is true for registrations made outside of the standard registration period. These fees will automatically be applied to your order.

Entries made within the very late entry window may or may not be accepted and very late entry fees will apply.

Please refer to the [Centre Charges](#) document for information about late fees for Technical Qualifications.

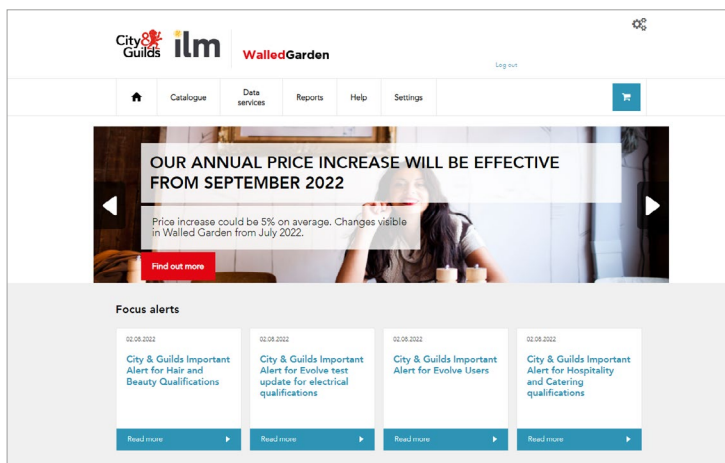

Important information about Health and Safety Evolve Exams

The entry process for on demand Health & Safety on-screen tests, which are a required assessment for several Technical Qualifications, is not covered in this document.

Please refer to the [Walled Garden guide](#) for how to enter your students onto these on-screen tests.

Use the rules of combination section of the specific qualification page on the catalogue to confirm all required units.

Frequently asked questions

What happens if I miss the deadline to enter my students onto an assessment?

All assessment entries should be made within the normal assessment entry window. Entries within the late entry window can be accepted and made in the usual way as detailed above but will incur a late fee.

If you have missed the normal and late entry windows, you may or may not be able to enter your students onto an assessment in the normal way, depending on the type of assessment and how close to the assessment date it is. If you are not able to make entries in the normal way you should contact the customer support team for assistance. However, be aware that it will not always be possible to make entries at this stage and candidates may need to be entered for the next series instead, so you are strongly advised to ensure assessment entries are made in a timely fashion.

Very late fees apply for any entries which are accepted after the late entry window.

What if I see a unit in the handbook but cannot submit an entry for it on Walled Garden?

Each handbook has a full listing of all unit criteria available. Not all of these units will appear on Walled Garden. Some of the units are assessed within the Synoptic Assignment and Theory Exams.

Why do you charge a fee for late entries?

Volumes of assessment entries are needed to allocate the correct number of examiners, for externally marked exams, and moderators, for moderated and externally quality assured assessments. There are also various other activities that take place once the entry windows have closed.
