Introduction

This report has been produced to support centres in this unprecedented time. During the pandemic we had to cancel our summer exam series for Technical Qualifications. Some of the spring series exams were also disrupted and therefore our normal process for creating Technical Qualification reports did not take place as they focus on student performance within these assessments. We understand that centres want to see the national achievement status, therefore we have produced this one-off report to support centres benchmark themselves within the national performance of a specific Technical Qualification.

The performance of the Technical Qualifications within this report are predominantly derived from Centre Assessment Grades (CAGs) for the summer which are based on tutors' professional judgements of the students and so should not be compared with other years.
