Introduction

During 2021 we had to cancel our Spring and Summer exam series for Technical Qualifications and therefore our normal process for creating Technical Qualification reports did not take place as they focus on student performance within these assessments. We understand that centres want to see the national achievement status, therefore we have produced this summary report to support centres in benchmarking themselves within the national performance of a specific Technical Qualification.

The performance of the Technical Qualifications within this report are derived from Teacher Assessed Grades (TAGs) for the summer and so should not be compared with other years.

Please note percentage figures have been rounded to a whole number.
