Rationale for changes

At City & Guilds we understand that each sector we work with has specific considerations that must be accounted for in qualification and curriculum design.

The following slide(s) provide an overview of how the Technical qualifications have been modified for your sector and you will need to take these changes into account when planning your curriculum delivery.

0175 Floristry special considerations

Assessment for this Technical Qualification includes:

- One Synoptic assessment – available to centres in Sept for January(2nd) – May delivery, upload by published timeline (15th May) – externally set, internally marked, externally moderated – 60% weighting
 - One Theory exam, dates as set in published exam guide, externally set and externally marked 40% weighting either paper or dated online examination
 - For all the 0175 suite of qualifications the exam guide and qualification handbook clearly define which learning outcomes from which units are assessed by the exam
 - Health and Safety exam – can be taken multiple times to pass
 - Undertake and review 150 hours work related experience
 - Employer engagement submission by centre (12th June)
 - No optional unit choice – all mandatory
- Past theory and synoptic assessments can be used as practice papers/tasks

Land Based Services

Technical Advisor

Bee Hurd

Belinda.Hurd@cityandguilds.com

07730 764886

"I can be talking about anything from tractors and chainsaws to veterinary nursing and dog grooming and all aspects of anything else in between."

Technical Advisor for Land and Animal

After completing her degree in Biochemistry and Agriculture, Bee has been involved in a number of roles including qualified riding instructor, grooming at national level and lecturing on multiple disciplines in a rural training centre for people with learning difficulties. As the centre converted into a college, she became Head of Education and completed her Masters in Education.

Bee looks after the land-based sector which is massively diverse. She advises on qualifications available, curriculum planning, delivery and assessment methodology and facilitates bespoke training on the issues arising from these activities. She still has an active role within quality, providing quality assurance on a range of qualifications across the sector. Additionally, Bee supports internal teams with queries, concerns and anomalies.

Technical Advisor

John Wray

John.Wray@cityandguilds.com

07970 472590

"With over 40 years' of experience in Land-based industries, I've watched learners' confidence develop as they grow from school leavers to graduates with a higher level qualification, which confirms the value of a good vocational education."

Technical Advisor for Land and Animal

John has worked within the FE sector for over 43 years at a large specialist college in the North of England. Whilst working on the college farm he completed a degree in Land Management and Technology on a part time basis. Throughout his working life he has gained a wide range of City and Guilds/NPTC qualifications starting with a Level 1 on a day release basis after leaving school, then going to college to do a Level 2 and offered a job on the college farm for a year or 18 months to gain more experience. He gained various Certificates of Competence throughout his time on the farm. In 1999 he was offered a lecturing post and in 2002 made Head of Agriculture a post he held for 16 years the last 7 years as an outstanding department. John was lead IQA for both full time FE and apprenticeships linked to agriculture.

As a Technical Advisor for Land, John's role is incredibly varied from advising on Floristry to Land based engineering and from Equine queries to Arboricultural qualifications and everything in between. John is passionate about the wider land industry and the importance of maintaining traditional skills as well as championing new technologies and developments within the Land-based industries.

Thank
you
