

Universities accepting Advanced Technical Extended Diplomas in Land-based subjects for progression to related degree courses.

Students must meet all the pre-requisite entry requirements which can be found on each university's website.

Universities may require specific optional units to be taken to access certain degree courses. Please contact the University to obtain further information.

For students wishing to progress to a science related degree course it's advisable to have studied the Animal Management Advanced Technical Extended Diploma and followed the science route in year two.

Land-based
