Product code: SS9673-L2.

This form-fillable PDF training manual is aligned to both City & Guilds Level 2 Property Maintenance Operative qualifications and apprenticeship standard and offers coverage of the key skills. It is a practical resource for learners, and their progress can be saved. The manual provides learners with a series of practical tasks to support their skills development. These tasks are designed to reflect the full range of skills that learners will need to master to succeed in the workplace. Throughout the manual, trainers and employers can record constructive feedback that learners can use for their development. The tasks cover the skills required for a successful Level 2 learner, but do not need to be completed in the order given in the manual. Employers and training providers should feel free to assign the tasks in any order. Subscribers to the SmartScreen package may use the files on any e-portfolio of their choice provided that the SmartScreen subscription is maintained.

Each task includes:

- planning sections for learners to cover what tools, equipment (including PPE) and resources they'll need to complete the task successfully
- a risk assessment for learners to fill out to ensure safe completion of work
- a step-by-step guide with detailed working drawings so learners know how to complete the task to the required specifications
- a space for learners to reflect on how the task and what they need to work on in the future.
