City & Guilds SmartScreen

City & Guilds SmartScreen is our dedicated online resource portal, supporting over 120 qualifications. It currently boasts more than 80,000 resources and pages of content for tutors and learners.

How can SmartScreen help me?

SmartScreen materials have been designed specifically for each individual qualification. They have been developed to assist tutors, and others, delivering the qualification to obtain the best possible results for their learners.

Price: £2,100 + VAT (SS0169–2S0896)

Supported packages: Level 2 Diploma for Hair Professionals – Barbering (7002), Level 2 Technical Certificate in Barbering (6002) and Level 3 Advanced Technical Diploma in Barbering (6002)

This bundle package is for centres who require resources for both the Level 2 and 3 Technical qualifications and the Hair Professional Apprenticeship. The video content is the same across both packages – so buying in this way ensures that you only pay once for the Enhanced content.

Resources

Schemes of work – an ideal guide for tutors to ensure that all of the learning requirements are covered.

Sample lesson plans – to give tutors inspiration and save valuable planning time.

Individual learning plan – to enable learners to record their progress through each unit, identifying areas for further development and recording a plan to achieve targets.

Consultation sheets – act as checklists for learners to work through when planning client services and treatments, to ensure the suitability of the style and health and safety considerations.

PowerPoint presentations – slide decks that allow tutors to save valuable preparation time, while still delivering a professional and engaging presentation in the classroom.

Handouts – provide a convenient way of presenting key information to learners in a classroom setting. They save tutors time and give learners the confidence that they are receiving the information they require.

Worksheets – these can be used by learners to review and implement what they have learned. Worksheets can be projected on to the whiteboard or downloaded for tutors to make changes and adapt to their own delivery style.

Video e-learning – the practical units in this package are supported by instructional videos to demonstrate the skills learners need to master.
