Resources

This form-fillable PDF apprenticeship training manual is the essential practical resource for any learner starting out in the architectural joinery industry. Suitable to use for the Level 2 Architectural Joinery apprenticeship, this resource provides apprentices with a series of practical tasks to support their learning experience.

These practical tasks are designed to reflect the full range of skills that learners will need to master to succeed in their learning as well as in the workplace. Tutors will also find that these tasks provide a suitable practical structure to frame the theory work that learners will be doing alongside their workshop skills.

It is the must-have purchase for any learning undertaking the Level 2 Architectural Joinery apprenticeship.

This manual includes 22 work-based tasks that have been mapped to the apprenticeship standards and are designed to prepare learners for the requirements of their end-point assessment.

Each task includes:

- theory questions to get the learner to think about the task before starting

- planning sections for learners to cover what tools, equipment (including PPE) and resources they'll need to complete the task successfully

- a risk assessment for learners to fill out to ensure safe completion of work

- a step-by-step guide with detailed working drawings so learners know how to complete the task to the required specifications

- space for learners to reflect on how the task went and what they need to work on in the future.

Throughout the manual, employers can record constructive feedback that learners can use for their development. Tasks also do not need to be completed in the order given in the manual. Employers and training providers should feel free to assign each task in any order.
