About this manual

The tasks in this form-fillable PDF manual are provided to support the apprentice's progression during the on-programme phase of the Heavy Vehicle Service and Maintenance Technician Apprenticeship.

The tasks have been organised into Years 1, 2 and 3. Successful completion of all the tasks at the end of Year 3 should indicate readiness for independent end-point assessment. Employers and training providers can utilise the content to assist in the design of the learning and development phase of the apprenticeship.

The manual is designed to support formative learning by allowing the apprentice to track their progress and record evidence. The tasks can be completed more than once allowing the apprentice to develop confidence in their practical skills and gain the additional knowledge, behaviours, and literacy and numeracy skills required to be ready for the end-point assessment.

Why choose SmartScreen?

Shake learning up	Offers flexibility in lesson delivery and learning styles.
Learn inside and outside the classroom	With increased internet speeds available to learners using smartphones, laptops and tablets, resources can be accessed at any time and in any location.
Stay ahead	The definitive source for the most up-to-date information about qualification developments and delivery information.
