This manual contains a range of practical tasks which allow apprentices to apply their knowledge and skills.

The tasks are mapped to the Level 3 Vehicle Damage Paint Technician apprenticeship standard and have been devised to prepare learners for the requirements of their end-point assessment.

Each task contains the following features:

- **the aim** of the practical activity that enables learners to practise a particular skill.
- **the process** of the task to advise learners on how they should best carry it out.

- **a task report** section for learners to detail how they completed the task.
- **knowledge questions** to help learners embed the knowledge required to carry out their task successfully.
- **reflective questions** to give learners the opportunity on what went well during the task and areas for improvement.
- **a mentor/trainer feedback** section at the end of each task and for employers and trainers to provide comments and advisories.

The tasks should cover all the knowledge, skills, and behaviours required for the apprenticeship.
