About this manual

Price: Email digital.solutions@cityandguilds.com for details. Product code: SS039700.

This manual contains a range of practical tasks which allows apprentices to apply their knowledge and skills.

The tasks are mapped to the Level 3 Digital Support Technician apprenticeship standard and have been devised to prepare learners for the requirements of their end-point assessment. Each task is split into three sections:

- **Know it** questions covering the knowledge required to work competently

- **Show it** activities to allow learners to apply their knowledge and skills to a practical scenario
- **Reflect** questions which allow learners to reflect on how the task went and how it could be improved.

The tasks should cover all the skills and behaviours required for the apprenticeship but do not need to be completed in the order given in the manual.

Why choose SmartScreen?

- Shake learning up** Offers flexibility in lesson delivery and learning styles.
- Learn inside and outside the classroom** With increased internet speeds available to learners using smartphones, laptops and tablets, resources can be accessed at any time and in any location.
- Stay ahead** The definitive source for the most up-to-date information about qualification developments and delivery information.
- Do what you do best** Our lesson plans, handouts and worksheets will save tutors time, meaning that they can keep their heads out of the paperwork and teach.
- Peace of mind** Peace of mind that the resources fully support the qualification.
