CITY & GUILDS

GETTING A JOB - EMPLOYABILITY

E-LEARNING PROGRAMME

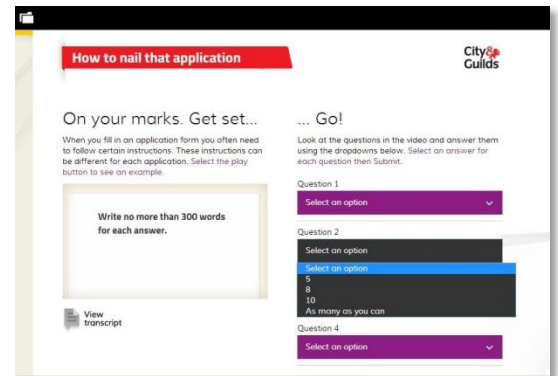

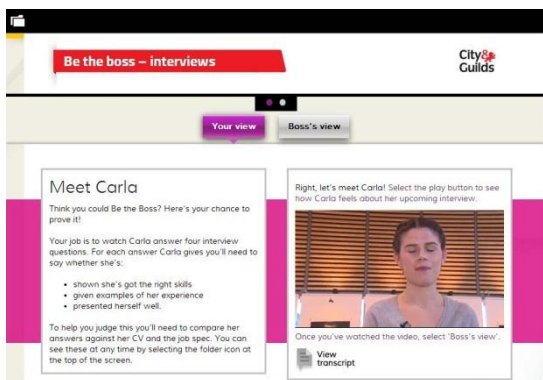

City & Guilds has produced an exciting new employability resource in collaboration with the leading e-learning services provider, Kineo.

The 'Getting a Job' e-learning programme will support learners in their primary aim – finding and keeping a job. It has been developed in response to the changing needs that learners have on their journey to becoming ready for employment.

Tutors, and others, delivering employability skills courses will find it an invaluable aid to creating a relevant and engaging experience for learners.

The programme has been through the same rigorous development, review and validation process that City & Guilds assessment materials go through to ensure that it is relevant and high quality.

- Enables tutors and centres to deliver a richer and more engaging learning experience to learners.
- The material is designed to be user friendly, with no specialist training or understanding required, plus a tutor guide provides real support in the classroom.
- Delivery of the material in bite size packets offers flexibility to learners allowing them to engage with the material in a way that suits them best.
- Much of the video material offers an alternative to role-play tasks – which are often not favoured by learners.
- Focuses on helping learners develop the actual skills they'll need to get a job.

Prices start from £300 per year and are based on the number of learners accessing the system
