Introduction

The construction industry is a vital part of the UK's economy and infrastructure, employing millions across a wide range of roles. With the sector adapting to new technologies, sustainability goals and evolving building standards, the need for highly skilled construction professionals has never been greater.

At City & Guilds, we are dedicated to supporting the growth of this dynamic industry by offering a comprehensive portfolio of tailored qualifications and apprenticeships. From core trades like bricklaying, carpentry and joinery, painting and decorating, and plastering to specialist areas including retrofit, site supervision and project management, our programmes are designed to meet the demands of the construction landscape today and in the future.

From level 1 to 4 qualifications to apprenticeships and specialised short courses, our industry-recognised programmes cater to diverse career paths and skill levels. By choosing City & Guilds, you gain access to:

- A vast library of qualification materials and resources
- Support from our unparalleled team of industry and technical experts
- Guidance on curriculum planning, delivery, funding updates, and quality assurance

Our programmes are developed in collaboration with employers and industry experts to ensure learners are equipped with the skills, knowledge, and practical experience they need to succeed in their careers. Whether a learner is looking to upskill, retrain, or start a new career in construction, City & Guilds is there to help on every step of the way. Together, we can shape the next generation of construction professionals and build a sustainable future.

Construction snapshot

We've been in the trades for generations, and our construction portfolio is unrivalled in its breadth, making our qualifications and apprenticeships the perfect route into industry.

Apprenticeships

Apprenticeships are available for learners over 16, and are funded by the government or via an employer levy. We are an approved EPAO for the main trade standards in construction.

Qualifications

We offer a range of qualifications across key construction sub-sectors including Technicals, VRQs and NVQs with courses from entry level 3 to level 5 to meet the needs of new and experienced construction professionals.

Green qualifications

Our green qualifications help equip the construction workforce with the skills needed in a more sustainable world.

ILM – leadership in construction

Our leadership and management experts, ILM, partnered with industry experts CITB and IQ to develop qualifications that equip learners with the essential skills to effectively lead, supervise and safely manage staff in the sector.

Functional Skills

Our Functional Skills qualifications provide learners with the essential skills to navigate real-life situations, support future employment opportunities and further their studies confidently and successfully.

Assured

Assured is our in-house training accreditation service, designed to support training success and achieving business goals.

Some of our key trades are

- Carpentry and joinery
- Bricklayer
- Plastering
- Painting and decorating
- Maintenance operative
- Retrofit

Construction qualifications and apprenticeships

Construction skills

Our construction skills qualifications offer a comprehensive introduction to core trades, equipping learners with foundational knowledge in areas like bricklaying, carpentry and joinery, plastering, painting and tiling to support entry into various industry roles.

Qualification	Accreditation number	Guided learning hours (GLH)	Available for delivery in
VRQs			
Entry Level Award in Construction Skills (6219-01)	601/0405/3	90-100	England, Wales

[View our insulation and building treatments qualifications on our website](#)

Health and safety

Our health & safety qualification is for learners wishing to apply for the Construction Skills Certification Scheme (CSCS) Green Card. It provides learners with the knowledge to manage risks, conduct safety checks, and maintain compliance on construction sites.

Qualifications

Qualification	Accreditation number	Guided learning hours (GLH)	Available for delivery in
Diplomas			
Level 1 Award in Health and Safety in a Construction Environment (6072-51)	603/1347/X	21	England, Wales, NI

[View our health and safety qualifications on our website](#)

Groundworker

Groundworkers play a crucial role in preparing sites for construction, working closely with supervisors and engineers to interpret design specifications and ensure the site is ready for building. They remain involved throughout the project, supporting other trades like bricklayers and plant operatives. Our apprenticeship and groundworker-related qualifications covers key skills such as site preparation, excavation, and foundation laying, equipping learners for groundwork roles.

Qualifications

Qualification	Accreditation number	Guided learning hours (GLH)	Available for delivery in

"We chose the City & Guilds Retrofit qualifications because they offer a broader scope, covering industrial and commercial buildings - unlike other qualifications. With the industry shifting towards PAS 2035 standards, there's a growing need for professionals with a solid understanding of retrofit techniques. We want to futureproof ourselves but, more importantly, our learners. So, we need to deliver training that develops the skills employers need today, as well as those they will need in the future."

Shane Carter, Head of Quality, Compliance and Curriculum for BuildSkill

[Read the full case study](#)

Retrofit and green

As sustainability becomes increasingly important, retrofit skills are in high demand. Developed in collaboration with industry specialists, our qualifications equip learners with the knowledge to improve energy efficiency in buildings, supporting the transition to greener construction practices.

Qualifications

Qualification	Accreditation number	Guided learning hours (GLH)	Available for delivery in
Retrofit qualifications			
Level 2 Award in Retrofit (7618-02)	610/1199/X	30	England, Wales, NI

New: Level 4 Award for Domestic Retrofit Assessors *Coming early 2025

Launching in early 2025, this level 4 qualification prepares retrofit assessors to survey buildings and provide essential information for energy efficiency improvements in line with the UK's PAS 2035 standard. Assessors will play a key role in evaluating retrofit requirements for sustainable building upgrades.

[Find out more about this qualification](#)

Masonry

Our masonry qualifications are distinguished from our bricklaying qualifications, in that candidates will learn tailored and specialised techniques in each of these areas, equipping learners to work on heritage sites and new builds alike.

Qualifications

Qualification	Accreditation number	Guided learning hours (GLH)	Available for delivery in
Level 1 Diploma in Stonemasonry (6715-01)	601/3613/3	442	England, Wales
Level 2 Diploma in Stonemasonry (6715-02)	601/3612/1	459	England
Level 2 Diploma in Craft Masonry (6715-04)	601/3191/3	460	England
Level 3 Diploma in Stonemasonry (6715-03)	601/3598/0	447	England

[View our masonry qualifications on our website](#)

Roofing

Our qualifications cover key techniques in roofing systems like tiling, slating, and waterproofing, preparing learners for crucial work across residential and commercial roofing projects.

Qualifications

Qualification	Accreditation number	Guided learning hours (GLH)	Available for delivery in
Level 2 NVQ Diploma in Roofing Occupations (6569) (3 pathways available - view the level 2 pathways)	603/3397/2	193	England, Wales

[View our roofing qualifications on our website](#)

Interior systems

Interior systems professionals create functional and aesthetic interiors in commercial and residential spaces. Our qualifications in this area equip learners with skills in installing partitions, suspended ceilings, and various finishing systems, meeting industry standards and enhancing modern construction projects.

Qualifications

Qualification	Accreditation number	Guided learning hours (GLH)	Available for delivery in
Level 2 NVQ Certificate in Interior Systems (6567) (10 pathways available - view the level 2 pathways)	603/3151/3 603/3152/5	194-364	England, Wales, NI

[View our interior systems qualifications on our website](#)

Wall and floor tiling

Our selection of tiling qualifications develop key skills including surface preparation, material selection and tile application techniques, preparing learners for successful careers in a detail-oriented trade that enhances both functionality and aesthetics across various settings.

Qualifications

Qualification	Accreditation number	Guided learning hours (GLH)	Available for delivery in
Diplomas			
Level 2 Diploma in Wall and Floor Tiling (6710-23)	600/8785/7	435	England, NI
Level 2 Extended Diploma in Wall and Floor Tiling (6710-50)	600/9225/7	757	England, NI
NVQs			
Level 2 NVQ Certificate in Wall and Floor Tiling (6560-04)	600/9225/7	250	England, NI

Leadership within construction

ILM has worked alongside the Construction Industry Training Board (CITB) and the Institute of Quarrying (IQ) to create a suite of qualifications for the construction sector. These qualifications are aimed at team leaders, supervisors, foremen and site managers, designed to equip learners with core skills to drive projects in line with the needs of employers and contractors.

Funding note: CITB funding available for employers.

Qualifications

Qualification	Accreditation number	Guided learning hours (GLH)	Available for delivery in
Level 3 Award in Leadership and Management Practice for the Construction and Built Environment Sector (8626-11)	601/5583/8	20	England, Wales, NI, International
Level 3 Certificate in Leadership and Management Practice for the Construction and Built Environment Sector (8626-21)	601/5584/X	57	England, Wales, NI, International
Level 3 Diploma in Leadership and Management Practice for the Construction and Built Environment Sector (8626-31)	601/5589/9	115	England, Wales, NI, International

More skills solutions for your learners

Support your learners at every stage of their journey with functional skills, employability skills, leadership qualifications and more.

Skills for Work and Life: Functional Skills

For skills that unlock potential, our flexible programmes create stepping stones to success.

City & Guilds Functional Skills qualifications for maths, English and digital are designed for learners at college, on adult learning programmes, and for those working towards apprenticeships. They provide learners with the essential skills to navigate real-life situations, support future employment opportunities, and further their studies confidently and successfully.

They are available across five levels (entry 1 to level 2) for maths and English and at two levels (entry 3 and level 1) for digital skills. We offer flexible assessment types to support various learning routes and progression pathways, as well as a range of digital resources to help learners succeed.

Assured – accredit your in-house training

We know that some organisations have specific training needs that cannot be met by existing qualifications. Our Assured service has been designed to evaluate and certify in-house training programmes against our Assured Benchmark Standards, confirming the quality of the processes and systems used to design, plan and deliver the training. Securing Assured recognition demonstrates the strength of your training both internally and externally, showing that you take your employees' development seriously and that you are ensuring your workforce has the skills that you need.

Teaching and learning support

SmartScreen

SmartScreen is the City & Guilds tutor and learner support platform, providing online resources for our qualifications and apprenticeships.

Supporting over 150 qualifications and apprenticeships across 20 different industries, SmartScreen equips tutors and assessors with delivery tools and learners with engaging content.

[Learn more about SmartScreen](#)

Digital credentials

As more and more of the hiring process moves to an online-first model, having a digital way to help showcase knowledge and skills to potential employers can be a crucial tool to support career progression.

Digital credentials are a visual representation of an individual's skills that provide a convenient way to easily capture and share accomplishments and abilities online with professional networks and potential employers.

We offer digital credentials for the majority of our qualifications and programmes. They can be shared via email or social media and can provide a map of an individual's educational journey, giving your learners a competitive edge in the workplace.

Examples of credentials

About City & Guilds

Since 1878 we have worked with people, organisations and economies to help them identify and develop the skills they need to thrive. We understand the life changing link between skills development, social mobility, prosperity and success. Everything we do is focused on developing and delivering high-quality training, qualifications, assessments and credentials that lead to jobs and meet the changing needs of industry.

We work with governments, organisations and industry stakeholders to help shape future skills needs across industries. We are known for setting industry-wide standards for technical, behavioural and commercial skills to improve performance and productivity. We train teams, assure learning, assess cohorts and certify with digital credentials. Our solutions help to build skilled and compliant workforces.
