

Retrofit ready

Building the skills for
green construction

The Retrofit Industry

As governments and organisations worldwide prioritise carbon reduction targets, retrofitting existing buildings has emerged as a key strategy to achieve these goals. This presents an opportunity to tap into the growing demand and develop the skills needed to excel in the evolving world of green construction.

Our Retrofit qualifications

Our qualifications have been developed in collaboration with employers and industry specialists to align with industry needs and enhance the skills and knowledge required for retrofitting.

7618 Level 2 Award in Retrofit

- Gain essential knowledge and skills in retrofit practices, including the roles, responsibilities and requirements involved.
- Ideal for individuals starting their journey in the retrofit industry.
- Focuses on retrofit practices (PAS) and its impact on property systems.

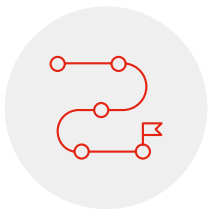

7618 Level 2 Certificate in Retrofit

- Develop a comprehensive understanding of retrofit techniques and applications.
- Suitable for learners seeking in-depth expertise in green construction.
- Includes safe working practices, industry regulations, effective communication and the principles of PAS.

Unlock funding opportunities

Funding is available for our Retrofit qualifications through the government's Adult Education and 16-19 funding budgets (subject to learner eligibility), and are approved for the CITB levy:

- CITB levy-paying employers can claim £600 CITB Grant Funding per qualification for successful learners.
- AEB Funding rates are £195 for the Level 2 Award and £941 for the Level 2 Certificate.

Career progression

Exciting news! City & Guilds has Level 3 and Level 4 qualifications in development, tailored to support learners' career progression in the retrofit industry. These advanced qualifications offer a clear pathway for learners to elevate their expertise, take on more significant responsibilities and pursue leadership roles in the field.

Support every step of the way

At City & Guilds, we are committed to your success. Our experienced technical advisors and dedicated industry managers are here to provide you with expert guidance, offer valuable insights, industry updates and support you in delivering high-quality training programs.
