
B27 male waxing

Intimate waxing techniques originated with female clients and are now spreading to male clients. Waxing is just one of many male grooming treatments that are growing in popularity and now men are turning to this treatment for many reasons, including wanting a clean and

hygienic look, or for sporting and bodybuilding reasons. Using specialist advanced waxing techniques, you will be shown how to provide the male Brazilian waxing, often referred to as a 'Boyzilian' and also total intimate hair removal.

Unit B27 (City & Guilds Unit 033)

Provide male intimate waxing services

Optional

Male waxing

3

Evidence requirements

To achieve this unit you must practically demonstrate in your everyday work that you have met the standards for providing male intimate waxing services.

The standards cover things that you must do (performance criteria), things that you must cover (range) and things that you must know.

What you must do

Your evidence should be collected when carrying out a real job, whether paid or voluntary, and when dealing with real clients, whether internal or external to the salon. Simulation is **not** allowed for any performance evidence within this unit.

Most evidence of your performance will be gathered from the observations made by your assessor, but you may be required to produce other evidence to support your performance if your assessor has not been present. This will involve your assessor observing your performance on at least **four** separate occasions, each involving a **different waxing service** and **different clients**.

This unit has four outcomes.

Outcome 1

Maintain safe and effective methods of working when providing male intimate waxing services

Outcome 2

Consult, plan and prepare for waxing services with clients

Outcome 3

Remove unwanted hair

Outcome 4

Provide aftercare advice

“

Male intimate waxing is growing in popularity. It is important to maintain professionalism throughout this service.

Anita Crosland

”

Unit B27 (City & Guilds Unit 033)

Provide male intimate waxing services

Optional (continued)

What you must cover

You will see key words in bold on the 'What you must do' list. For each of these, there is a range of things that you must cover. You must show that you have:

Used all of the following consultation techniques:

- Questioning
- Visual
- Manual
- Reference to client records

Carried out four of the following waxing services*:

- Lower back
- Buttocks
- Anal area
- Scrotum
- Penis

* However, you must prove to your assessor that you are able to deal with the other **one**.

Dealt with at least one of the following types of necessary action*:

- Encouraging the client to seek medical advice
- Explaining why the waxing service cannot be carried out
- Modification of the waxing service
- Refusing an unsuitable client

* However, you must prove to your assessor that you are able to deal with the other **three**.

Carried out all types of preparation of the client:

- Removal of accessories and clothing necessary for the treatment
- Protection of clothing
- Client's own cleansing of the area to be treated
- Trimming of overlong hair for the treatment

Used two out of the following products*:

- Hot wax
- Warm wax
- Sugar paste

* However, you must prove to your assessor that you are able to deal with the other **one**.

Used one out of the following pre-wax application products:

- Oils
- Powders

Used all of the following work techniques:

- Stretching and manipulating the skin during application and removal
- Speed of product removal
- Direction and angle of removal
- On-going product temperature checks

Given all of the following types of advice:

- Avoidance of activities which may cause contra-actions
- Future treatment needs
- Home care
- Personal hygiene

What you must know

You will be assessed on your knowledge of the following:

Organisational and legal requirements

How to work safely and effectively when providing waxing treatments

Consult, plan and prepare for the treatment with clients

Anatomy and physiology

Contra-indications and contra-actions

Equipment and materials

Treatment specific knowledge

Aftercare advice for clients

This will be completed through written and oral questioning by your assessor, or by an online test. For details of what you must know, see pages 16–22.

Male waxing

5

Useful words

Some terms that you will come across in this unit are explained below.

Back, sac and crack Hair is removed from the lower back, buttocks and scrotum.

Boyzilian Similar to a female Brazilian, male Brazilian waxing is characterised by a small strip of hair above the penis.

Habia Code of Practice for Waxing A set of guidelines by the sector skills body for the beauty therapy industry.

Penile warts Small, irregular cauliflower-like growths on the penis.

Personal protective equipment (PPE) Relates to clothing and equipment available when carrying out certain services. Includes gloves and aprons when waxing to reduce the risk of cross-infection.

Rosin An ingredient often found in wax, which would contra-indicate wax treatment if the client is allergic to sticking plasters, of which it is a component.

Scrotum A muscular sac that contains the testes.

Superfluous hair Any hair that is unwanted.

Urethra The narrow tube that runs through the length of the penis through which urine exits the body.

What you must do

6

Level 3 NVQ/SVQ Beauty

Within your work, you must show your assessor that you can do the following. Your assessor will observe your performance on at least **four** separate occasions. You must involve a **different waxing service** and **different clients** for each occasion.

Each time you achieve **all** the points listed below within a single client service, your assessor will tick the circle and enter the date.

Outcome 1

Maintain safe and effective methods of working when waxing

- a Prepare the work environment to meet legal, hygiene and industry Code of Practice for Waxing requirements
- b Ensure your personal appearance meets accepted industry Code of Practice for Waxing and organisational requirements
- c Wear suitable personal protective equipment for the work that conforms to the industry Code of Practice for Waxing
- d Prepare the client and provide suitable personal protective equipment to conform to the industry Code of Practice for Waxing
- e Make sure that environmental conditions are suitable for the client and the treatment
- f Ensure all tools and equipment are cleaned using the correct methods
- g Effectively disinfect your hands prior to waxing services
- h Maintain accepted industry hygiene and safety practices throughout the treatment

Continues on next page

- i Select and correctly position suitable equipment, materials, applicators and **products** for the **waxing service**
- j Ensure your own posture and position minimises fatigue and the risk of injury whilst working
- k Maintain the client's modesty and privacy at all times
- l Minimise wastage of product during application
- m Dispose of hazardous waste correctly to meet local authority requirements
- n Ensure that the treatment is cost-effective and is carried out within a commercially viable time
- o Ensure the client's records are up-to-date, accurate, easy to read and signed by the client and practitioner
- p Leave the work area and equipment in a condition suitable for further **waxing services**

Male waxing

Hints and tips

Always use a fresh spatula for each application of wax.

What you must do (continued)

8

Level 3 NVQ/SVQ Beauty

Hints and tips

Your client may be very nervous about the treatment, especially if it is his first time. A considerate and professional approach will help to put him at ease.

Talk to your client about what they want out of their waxing service.

Outcome 2

Consult, plan and prepare for waxing services with clients

- a Use suitable **consultation techniques** in a polite and professional manner to determine the client's treatment
- b Ensure that informed and signed parent or guardian consent is obtained for minors prior to any intimate waxing service *
- c Ensure that a parent or guardian is present throughout the intimate waxing service for minors **
- d Obtain signed written informed consent from the client prior to carrying out the treatment
- e Ask your client appropriate questions to identify if they have any contra-indications to **waxing service**
- f Encourage clients to ask questions to clarify any points
- g Accurately record your client's responses to questions
- h Conduct a test patch correctly on a suitable area of skin in the groin following the current industry Code of Practice for Waxing

Continues on next page

- i Inform the client in a tactful way if there is an adverse reaction to the test patch and treatment cannot be carried out
- j Take the **necessary action** in response to any identified contra-indications and the client's suitability for **waxing service *****
- k Clearly explain the possible contra-actions to the client prior to agreeing to the **waxing service**
- l Ensure client advice is given without reference to a specific medical condition and without causing undue alarm and concern
- m Agree the **waxing services** and outcomes that are acceptable to the client and meet their needs
- n Make sure the **preparation of the client** meets the agreed treatment plan and the industry Code of Practice for Waxing

What you must do (continued)

10 Level 3 NVQ/SVQ Beauty

Hints and tips

If the client is unsure how much hair they want removing, remember that you can always remove more, but once it's gone, it's gone!

Outcome 3

Remove unwanted hair

- a Use the correct **pre-wax application products** prior to waxing following manufacturer's instructions
- b Ensure the wax is the correct temperature for the client and the area to be treated immediately prior to the intended **waxing service**
- c Establish the hair growth pattern prior to the application of the product
- d Use methods of application correctly and following manufacturer's instructions
- e Apply and remove the product in the treatment area according to the requirements of the hair removal method and hair growth pattern
- f Conduct yourself in a professional manner throughout the **waxing service** in line with the industry Code of Practice for Waxing
- g Correctly remove hazardous waste from your work area throughout the **waxing service**
- h Provide clear instructions to the client on how and when to support their skin during the **waxing service**

Continues on next page

- i Ensure your **work techniques** minimise discomfort to the client
- j Check the client's wellbeing throughout the **waxing service** and give the necessary reassurance
- k Discontinue the **waxing service** and provide advice and recommendations for any other relevant treatment where contra-actions occur
- l Ensure the client's treatment area is left free of product and hair and treated with a suitable soothing product
- m Ensure that the finished result is to the client's satisfaction and meets the agreed treatment plan

Hints and tips

It is really important to ensure the skin is stretched taut to avoid bruising the client. This also makes the treatment less painful.

“

To trim long hair it is easier to use a battery operated moustache trimmer rather than scissors.

Sarah Farrell

”

Knowledge sign-off sheet

Unit B27 Provide male intimate waxing services

What you must know

You will be assessed on your knowledge and understanding of **all** the following points. This will be completed by your assessor through oral or written questions (evidence type E3) or a mandatory written paper (E4). Either of these could be an online test. The form tells you which evidence type is needed for each point.

Some areas appear in more than one unit (shaded in darker blue). These are covered in a cross-unit knowledge test. You only need to be tested on these once.

Once you have been assessed on each point, you can fill in the date and reference any written evidence that you've put in your portfolio.

You need to understand:		Evidence type
Organisational and legal requirements		
1	your responsibilities under relevant local and national health and safety legislation	E3
2	the importance of not discriminating against clients with illnesses and disabilities and why (eg Disability Discrimination Act)	E3
3	the age at which an individual is classed as a minor and how this differs nationally	E3
4	the importance of checking current insurance guidelines for the delivery of intimate waxing service	E3
5	the importance of following the current guidance relating any age restrictions for the intimate waxing service	E3
6	why minors should only be treated with informed and signed parental or guardian consent	E3
7	why it is important when treating minors to have a parent or guardian present	E3
8	the content of the current Code of Practice for Waxing Services and the importance of following its provisions	E3
9	local authority and organisational requirements for waste disposal	E3
10	why it is important to maintain standards of hygiene and the principles for avoiding cross-infection	E3
11	the importance of the correct storage of client records in relation to the Data Protection Act	E3
12	your organisation's service times for waxing treatments and the importance of completing services in a commercially viable time	E3

Continues on next page

You need to understand:	Evidence type
13 the organisation's pricing structures for intimate waxing services	E3
14 your organisation's requirements for client preparation	E3
15 the importance of, and reasons for, keeping records of treatments and gaining client and practitioner signatures	E3
16 how to complete the client records used in your organisation	E3
How to work safely and effectively when providing waxing treatments	
17 the type of personal protective equipment that should be available and used by yourself (eg powder free, nitrile or vinyl gloves)	E3
18 why it is important to use personal protective equipment	E3
19 the importance of providing suitable personal protective equipment for the client	E3
20 what is contact dermatitis and how to avoid developing it when carrying out waxing treatments	E3
21 the importance of questioning clients to establish any contra-indications to waxing treatments	E3
22 why it is important to record client responses to questioning	E3
23 the legal significance of client questioning and recording client's responses	E3
24 how to prepare and use the equipment and materials for the work	E3
25 methods of disinfecting and sterilising equipment	E3
26 how to maintain equipment and materials in a clean and hygienic condition	E3
27 how to prepare yourself for carrying out waxing treatments	E3
28 the importance of, and reasons for, disinfecting hands and how to do this effectively	E3
29 how to set up the work area for waxing treatments	E3

Male waxing

Hints and tips

Ask the client to stretch their skin themselves, to avoid any unnecessary handling.

Unit B27 (City & Guilds Unit 037)

Provide male intimate waxing services

Optional

About City & Guilds

City & Guilds is the UK's leading provider of vocational qualifications, offering more than 500 awards across a wide range of industries, and progressing from entry level to the highest levels of professional achievement. With over 8500 centres in 100 countries, City & Guilds is recognised by employers worldwide for providing qualifications that offer proof of the skills they need to get the job done.

Equal opportunities

City & Guilds fully supports the principle of equal opportunities and we are committed to satisfying this principle in all our activities and published material. A copy of our equal opportunities policy statement is available on the City & Guilds website.
