## City & Guilds

### **600/5498/0 Level 2 Diploma in Electrical Installations (Buildings and Structures)**

#### **Who is this qualification for?**

This qualification is aimed at you if you, if you are looking to start a career in the electrical industry.

This qualification is suitable for anyone from 16 years old or over. There are no formal entry requirements for anyone wishing to take this qualification.

#### **What does this qualification cover?**

This qualification covers a very wide range of skills and knowledge required for preparing to work in the Electrical industry.

The following areas that will be covered within this qualification:

- health and safety
- principles of electrical science
- electrical installations
- installation of wiring systems
- communication within building services engineering.

Centres and providers may work with local employers who can contribute to the knowledge and delivery of training. Employers may provide demonstrations and talks on the industry and where possible work placements will also be provided by the employers. This practically based training is ideal preparation for training on the job or specialist further study

#### **What could this qualification lead to?**

On successful completion this qualification will provide you with the practical skills and knowledge to further progress your learning within the electrical industry.

#### **Will this qualification lead to further learning?**

To become a qualified electrician you will need to progress onto either of the following qualifications:

Level 3 NVQ Diploma in Installing Electrotechnical Systems and Equipment (Buildings, Structures and the Environment)

Level 3 NVQ Diploma in Electrotechnical Services (Electrical Maintenance).

**Why choose this qualification over other similar qualifications?**

You are more likely to choose this qualification if you want to cover all of the basic skills and knowledge you will need to work as an electrician.

**Who supports this qualification?**

This qualification is supported by the IET (Institute of Engineering & Technology)

**THIS IS INTENDED FOR USE AS A SUBSTANTIAL VOCATIONAL QUALIFICATION AT LEVEL 2.**
