Dear Salim

As the leading Trade Association within England and Wales, that supports the Plumbing and Domestic Heating Industries, we confirm that the following qualifications are suitable for an individual wanting to enter the Plumbing or Domestic Heating Industry.

City & Guilds Level 2 Diploma in Plumbing Studies 600/5500/5

City & Guilds Level 2 Diploma in Access to Building Services Engineering 600/0989/5

We consider that the qualification will give the young person an advantage in seeking employment in the Plumbing & Heating sector and/or progressing into further study, such as the 6189 Plumbing and Heating apprenticeship leading to a fully competent Plumber

We support the following qualification as a Technical Level for inclusion in the DfE Performance Tables.

We give permission to City & Guilds to publish this letter of support and our logo on its website.

Yours sincerely

Graeme Dryden
Technical Services Manager
