Letter of support for City & Guilds Level 2 Diploma in refrigeration, air-conditioning and heat pump systems (600/6036/0)

The Air-conditioning Refrigeration Industry Board (ACRIB) is an umbrella body for the RACHP industry which represents the interests of the air-conditioning and refrigeration industry across a wide range of employers. I can confirm that we support that the above qualification meets industry needs as stated in the current National Occupation Standards and would give a young person, aged 16-19, studying full time relevant skills and knowledge to prepare for employment in the industry until a new industry-led Trailblazer apprenticeship approach is available.

We consider that this qualification will, in the meantime, give the young person an advantage in seeking employment within the sector and/or progressing onto further study, such as City & Guilds Level 3 NVQ Certificate in Installing and Commissioning Air Conditioning and Heat Pump Systems 600/0900/7 or an apprenticeship leading to an air-conditioning or refrigeration occupation.

We give permission to City & Guilds to publish this letter of support and our logo on its website.

Yours sincerely

Miriam Rodway

Secretary
