

17 July 2020

Mr Salim Visram
Lead Industry Manager
City & Guilds
1 Giltspur Street
London
EC1A 9DD

Dear Mr. Visram,

Letter of Support

As the employer Chair of The Electrotechnical Skills Partnership (TESP), please accept this letter as our support for the **City & Guilds Level 3 Electrotechnical Experienced Worker Qualification** to be submitted to Ofqual for accreditation to the Regulated Qualifications Framework (RQF).

This qualification is designed solely for individuals who have been working in the electrotechnical industry as a practicing electrician for a minimum of 5 years and possess specified knowledge, understanding and competence as outlined in the Skills Scan.

It has been developed with the active support of employers and industry organisations (including ECA, ECS, JIB, NET, NAPIT, Certsure and Unite) and is designed to achieve parity with the performance objectives of the Level 3 Electrotechnical qualification within the current Installation / Maintenance Electrician apprenticeship standard (ST0152). I was part of the original Trailblazer employer group that developed this standard.

The Electrotechnical Experienced Worker Qualification forms part of the requirements for the Electrotechnical Experienced Worker Assessment, enabling the experienced worker to apply for an ECS Installation Electrician Gold Card.

In our opinion, the content and size of this qualification is appropriate and valuable for learners and should allow learners to develop and accredit the skills and knowledge they will need achieve recognised status within the sector.

Please do not hesitate to contact us if you have any queries or require any further information.

Yours sincerely,

Ruth Devine
Managing Director – SJD Electrical
Employer Chair – The Electrotechnical Skills Partnership
