Below is an example of how this facility works in practice.

### **Registration**

The learner is registered on main qualification, for example 0073 -03 (**cost £80.00 for registration**). They are enrolled on a 60 credit Subsidiary Diploma in Agriculture qualification. They complete 10 credits from 301, and 40 credits from 304, 306, 307 and 308.

However they want to take the final 10 credits required from unit 310 in the 0074 in the Level 3 Animal Management suite. Therefore the learner also needs to be registered on 0074 -93, the unit route (**cost £0.00 for registration**).

### **Submission of results**

Once all units (including the unit 310) have been completed and the overall result calculated (including the grade from unit 310), in this example Merit, the results need to be submitted.

Under 0073-03, the following results are submitted:

301, 304, 306, 307, 308, 914 and credit transfer module 810 (**cost £5.00 X 6 results entry = £30**)

Certification fee payable **£0.00**

Under 0074-93, the following results are submitted:

310 (**cost £5.00 for results entry**)

No certification is required – the learner will be automatically issued with a Certificate of Unit Credit.

### **Certification**

There will be an overall Certificate issued for 0073-03 showing that the learner has successfully completed the overall qualification. In addition, the learner will receive a Certificate for showing that they achieved one unit (310 and 10 credits) via the unit route.
