Framework Qualification	Credit	Fundable	GLH	QAN	City & Guilds number
Level 3 Award In the Initial Verification and Certification of Electrical Installations	5	N/A	36	600/3785/4	2394-01

Qualification aim	Qualification levels and definition	Progression routes
The 'Gold standard' by which all other qualifications in the market place are measured against. This qualification is aimed at practicing electricians who require CPD or up-skilling. The qualification helps you to develop the knowledge and practical skills required to professionally install and carry out initial verification and testing on electrical installations.	The level 3 qualification will suit you if you are a practicing electrician and have a great deal of technical skills and knowledge. You work with minimum supervision and have a good record of safety, fault correction and ensuring work meets the required standard.	On completion learners will gain the skills and knowledge required to progress to: Level 3 Award in Periodic Inspection, Testing and Certification of Electrical Installations (2395) Level 4 Award in the Design and Verification of Electrical Installations (2396) In addition, we also have a number of Higher Level qualifications offered through the Institute of Leadership and Management (ILM). <a href="http://www.i-l-m.com">www.i-l-m.com</a>

	Key features	Key benefits
<b>Structure</b>	Learners must complete 1 mandatory unit: Principles, practices and legislation for the initial verification of electrical installations.	By completing the mandatory unit and the assessments, learners will have the knowledge and skills to carry out safe and successful electrical inspection and testing.
<b>Assessment</b>	There are three forms of assessment: On-demand assessment is available through the City & Guilds. e-assessment platform e-olve. Short answer question paper. Practical assessment.	e-olve is designed to cut the time spent marking and reduces your paperwork. The on-demand assessment is flexible and improves success rates as candidates only complete when they are ready.
<b>Support</b>	Our support resources include: a free Qualification Handbook, online tutor and learner support via SmartScreen. We also have full time qualification advisors who can help provide solutions to technical queries and help advise on delivery options across the qualification portfolio.	SmartScreen helps tutors save time planning and supports learners in order to drive greater quality and better success rates.  Personal support is available from the largest team of subject specific Quality Consultants, Portfolio advisors, Customer Relations Team and dedicated Business Managers.

### Reasons to choose City & Guilds

<b>City &amp; Guilds is the market-leading awarding</b>	We are the market-leading awarding organisation for qualifications in Electrical. Learners can progress to and from the Electrotechnical suite to a variety of industry standard qualifications through City & Guilds.
<b>Industry expertise</b>	We have consulted and worked in partnership with the IET the ECA and the JIB, to ensure that our qualifications provide relevant, work-ready training.
<b>Recognised by employers</b>	Our qualifications are trusted and valued both by experts and employers across the Electrotechnical industry which will help you to engage with employers and provide learners with the skills and training that will allow them to succeed in employment.
