Dear Salim

City and Guilds Level 2 Technical Certificate in Plumbing

Founded in 1906, the Chartered Institute of Plumbing and Heating Engineering (CIPHE) is the professional body for the UK plumbing and heating industry. As the leading professional institution within the plumbing and heating industry we support the above qualification for young people to progress into the industry. One of the key objectives of the Institute when formed was to promote education and technical training programmes with colleges and the industry.

We have worked with City & Guilds as part of their development process, to scope out the proposed qualification. We are satisfied that the content meets both our needs as a leading Professional Body in this sector and those of the young people taking it who are preparing for a career within the plumbing and heating industry. The City and Guilds Level 2 Technical Certificate in Plumbing allows learners to gain the essential skills and knowledge to progress onto an apprenticeship programme at level 3. This route at Level 2 is a step towards becoming a competent Plumber.

We believe the following practical skills and knowledge will enable learners to have the foundations to progress onto further learning within the plumbing and heating industry.

Skills and knowledge include:

- Health and Safety and Industry Practices
- Central Heating
- Hot Water
- Cold Water
- Sanitation and Drainage
- Plumbing Processes
- Electrical and Scientific Principles

Contd/.....

I confirm that we consent to our company name (and logo) being made publicly available on the DfE and City and Guilds websites.

Yours sincerely

A handwritten signature in purple ink that reads 'Kevin Wellman'.
