

## 8952 Audio Transcription 2011

### Intermediate 80 wpm

### Intermediate 100 wpm

## **General Observations**

At Intermediate 80 wpm the percentage number of candidates achieving a First Class pass has increased by 6% since 2010 indicating that candidates have been better prepared for the examination. However the percentage number of candidates failing has also increased fallen by 4% since 2010.

Despite the high number of passes at 80 wpm it is disappointing that at 100 wpm there was only one candidate. However, this candidate did achieve a First Class Pass indicating that they had been well prepared for the examination.
