• provides an opportunity to develop knowledge and skills that will aid progression to a management role for those practitioners who wish to follow this career pathway

The qualification is derived from and mapped to the CCLD and Health & Social Care National Occupational Standards.

Principles and values of the sector
The following principles and values underpin the complete set of standards in their entirety.

Principles
1. The welfare of the child is paramount
2. Practitioners contribute to children's care, learning and development and this is reflected in every aspect of practice and service provision
3. Practitioners work with parents and families who are partners in the care, learning and development of their children and are the child's first and most enduring educators.

Values
1. The needs, rights and views of the child are at the centre of all practice and provision
2. Individuality, difference and diversity are valued and celebrated
3. Equality of opportunity and anti-discriminatory practice are actively promoted
4. Children's health and well-being are actively promoted
5. Children's personal and physical safety is safeguarded, whilst allowing for risk and challenge as appropriate to the capabilities of the child
6. Self-esteem, resilience and a positive self-image are recognised as essential to every child’s development
7. Confidentiality and agreements about confidential information are respected as appropriate unless a child’s protection and well-being are at stake
8. Professional knowledge, skills and values are shared appropriately in order to enrich the experience of children more widely
9. Best practice requires reflection and a continuous search for improvement.

In order to be assessed as competent learners must demonstrate that they work within the context of the principles and values of the sector, relevant regulatory or inspection frameworks and Codes of Practice. Assessors will be expected to confirm this by signing the declaration form, Unit assessment and verification declaration.

2 Centre requirements

This section outlines the approval processes for Centres to offer this qualification and any resources that Centres will need in place to offer the qualifications including qualification specific requirements for Centre staff.

2.1 Centre approval

Centres new to City & Guilds

To offer these qualifications, new centres will need to gain both centre and qualification approval. Please refer to Appendix 2 for further information.

Centres already offering City & Guilds qualifications in this subject area

Centres approved to offer the City & Guilds Level 4 NVQ in Children’s Care, Learning and Development (CCLD) (3171) will receive automatic approval for the new Level 5 Diploma in Leadership for Children’s Care, Learning and Development (Wales and Northern Ireland) (4227-07/97). Centres will retain any outstanding sanctions. Direct claims status cannot be awarded until the External Verifier has sampled across a full qualification.

Existing City & Guilds centres not currently approved to offer qualifications in this area

Those City & Guilds centres already approved to deliver City & Guilds qualifications but do not have experience of delivery in this subject area will need to go through the qualification approval process. Please refer to Appendix 2 for further information.

2.2 Human Resources

To meet the quality assurance criteria for these qualifications, the centre must ensure that the following internal roles are undertaken:

- Quality Assurance Coordinator
- Trainer/Tutor
- Assessor (occupationally competent and occupationally knowledgeable)
- Internal Quality Assurer

Please note that centre staff are not expected to have had experience of working across the entire 0–19 years age range but are expected to update their knowledge through continuing and demonstrable professional development.

Centre staff may undertake more than one role, eg tutor and assessor or Internal Quality Assurer, but must never internally quality assure their own assessments.

Continuing Professional Development (CPD)

Centres are expected to support their staff in ensuring that their knowledge remains current. This includes currency within the occupational area and of best practice in delivery, mentoring, training, assessment and verification. It should also take account of any national or legislative developments.
2.3 Role requirements

Assessor requirements

The Assessors of competence based units must:

- Be occupationally competent - this means that each assessor must be able to carry out the full requirements within the competency units that they are assessing. Occupational competence means that they are also occupationally knowledgeable.
- Maintain their occupational competence through clearly demonstrable continuing learning and professional development.
- Hold or be working towards one of the following qualifications:
  - D32/D33 or A1 OR
  - The AI replacements (eg City & Guilds 6317, which includes the Level 3 Award in Assessing Competence in the Work Environment, or the Level 3 Certificate in Assessing Vocational Achievement) OR
  - Another suitable qualification equivalent/alternative in the assessment of work based performance. This must be agreed in advance with the External Verifier OR
  - Assessors of competence based units may also make assessment decisions on knowledge based unit and learning outcomes.

Assessors of knowledge based units and knowledge based Learning Outcomes must:

- Be occupationally knowledgeable. This means that each assessor should possess relevant knowledge and understanding to assess units designed to test specific knowledge and understanding or units where knowledge and understanding are components of competency.
- Maintain their occupational knowledge through clearly demonstrable continuing learning and professional development.
- Hold or be working towards one of the A1 replacement qualifications such as the City & Guilds 6317:
  - Level 3 Award in Assessing Vocational Competence OR
  - Level 3 Award in Assessing Vocationally Related Achievement OR
  - Level 3 Certificate in Assessing Vocational Achievement OR
  - Another suitable qualification in the assessment of knowledge. This must be agreed in advance with the External Verifier.

Internal verifiers/Internal Quality Assurer

Internal quality assurance is key to ensuring that the assessment of evidence for units is of consistent and appropriate quality. Those carrying out internal quality assurance role must be occupationally knowledgeable in the area they are assuring and be qualified to make quality assurance decisions.

Teacher/trainer/tutor requirements: Northern Ireland

Tutors and lecturers:

A teaching qualification is not mandatory for appointment to posts in FE within Northern Ireland. Full-time and associate lecturers in FE without a teaching qualification (such as a BEd or a PGCE) are expected to complete the Postgraduate Certificate in Further and Higher Education delivered by the University of Ulster (the only recognised provider) within three years of taking up a post. Lecturers who go on to complete the Postgraduate Diploma in Further and Higher Education are also eligible to teach in schools. Issues surrounding a new award of Qualified Teaching, Learning and Skills (QTLS) are still under consultation with the Department for Employment and Learning in Northern Ireland (DELNI). For the latest information, visit Lifelong Learning UK (LLUK).
**Teachers:**
The General Teaching Council for Northern Ireland (GTCNI) has a statutory duty to determine who should be a member of the teaching profession in Northern Ireland. The GTCNI is a self-regulatory professional body for teachers. All teachers who wish to have their qualifications approved for the purposes of registration with the GTCNI and eligibility to teach should contact the GTCNI, 4th Floor Albany House, 73-75 Great Victoria Street, Belfast, BT2 7AF.

Any queries regarding qualifications should be referred to the GTCNI at the address above, or alternatively telephone: (028) 90333390 or email: info@gtcni.org.uk

**Teacher/trainer/tutor requirements: Wales**
The current position on teaching qualification requirements for the life long learning sector in Wales is set out in the following Welsh Assembly Government statement:

Please also see the following:

**Expert witness**
An expert witness must:
1. have a working knowledge of the QCF units on which their expertise is based
2. be occupationally competent in their area of expertise
3. have EITHER any qualification in assessment of workplace performance OR
4. a professional work role which involves evaluating the every day practice of staff.

**2.4 Candidate entry requirements**
There are no formal entry requirements for learners undertaking this Diploma. However, centres must ensure that learners have the potential and opportunity to gain evidence for the qualification in the work place. Some units require learners to be working within a particular context or with a particular age range for example:
- Unit 160 requires learners to be leading teams that are working with babies and young children
- Unit 162 requires learners to be leading support for disabled children and their carers.

Learners should not be entered for a qualification of the same type, content and level as that of a qualification they already hold.

Learners should choose optional units that are appropriate to their chosen work role.

**Age restrictions**
This Level 5 Diploma is not approved for the use by those who are under 18 years of age. City & Guilds cannot accept any registrations for learners who are have not reached this age. There may also be age restrictions placed on individuals when undertaking certain work activities within the child and young people’s sector. Where there is uncertainty about such restrictions these should be clarified with the appropriate regulator in the relevant home nation.
Other legal considerations

The following legal considerations apply to this qualification.

Learners entering the children and young people's sector are legally required to undergo formal record check relevant to their home nation prior to taking up any employment/work placement. Centres, employers and placement providers will need to liaise closely with one another to ensure that any requirements for the particular work area are fully met. As the requirements vary between sectors and countries checks should be made with the appropriate regulatory body and/or government departments if centres, employers or placement providers are uncertain of the requirements.

2.5 Guidance for the assessment and verification for imported units

Where units have been developed by Sector Skills Councils or Standard Setting Bodies other than Skills for Skills for Care & Development any specific assessment requirements will be detailed in the unit itself.

Links to other qualifications and frameworks can be found in Appendix 1.

2.6 Assessment decisions

Assessment decisions for criteria that must be assessed in the workplace (competence based assessment criteria) are identified in each unit assessment requirements. Assessment decisions must be made by an assessor and/or an expert witness with appropriate occupational competence. Observations must occur in a real work environment. In these units direct observation will be the main source of evidence. Other forms of performance evidence must be generated from a real work environment. Simulation may only be utilised as an assessment method for competence based assessment criteria where this is specified in the assessment requirements of the unit.

Expert witnesses can be used for direct observation where:
- they have occupational expertise for specialist areas, OR
- the observation is of a particularly sensitive nature.
- have **EITHER** any qualification that includes assessment of workplace performance **AND/OR** a professional work role which involves evaluating the everyday practice of staff

The use of expert witnesses should be determined and agreed by the assessor. Assessment of criteria not identified in the unit assessment requirements as requiring assessment in the workplace may take place in or outside of a real work environment.
3 Course design and delivery

3.1 Initial assessment and induction
Centres will need to make an initial assessment of each learner prior to the start of their programme. This will help to ensure they are entered for an appropriate type and level of qualification.

The initial assessment should identify:
- any specific training needs the learner has, and the support and guidance they may require when working towards their qualification. This is sometimes referred to as diagnostic testing.
- any units the learner has already completed, or credit they have accumulated which is relevant to the qualification they are about to begin.
- Any other formal or informal training or experience for which the learner could receive recognition for prior learning (RPL). Further information about the use of RPL can be found at section 4.6 in this log book.

City & Guilds recommends that centres provide an induction programme to ensure the learner fully understands the requirements of the qualification they will work towards, their responsibilities as a learner, and the responsibilities of the centre. This information should be recorded in a learning contract or a personalised learning plan or a similar document.

3.2 Recommended delivery strategies
Centre staff should familiarise themselves with the structure, content and assessment requirements of the qualifications before designing a course programme.

Centres may design course programmes of study in any way which:
- best meets the needs and capabilities of their learners
- satisfies the requirements of the qualifications.

In particular, staff should consider the skills and knowledge related to the national occupational standards (NOS). The relationships to the relevant NOS can be found in each unit.

When designing and delivering the course programme, centres might wish to incorporate other teaching and learning that is not assessed as part of the qualification. This might include the following:
- literacy, language and/or numeracy
- personal learning and thinking
- personal and social development
- employability

City & Guilds recommends that, where appropriate, when designing and delivering the course centres should also consider links to the National Occupational Standards, ‘Essential Skills Wales’ and Essential Skills,(NI) and other related qualifications.
3.3 Data protection, confidentiality and legal requirements

Data protection and confidentiality
Data protection and confidentiality must not be overlooked when planning the delivery of this qualification.

Centres offering these qualifications may need to provide City & Guilds with personal data for staff and learners. Guidance on data protection and the obligations of City & Guilds and centres are explained in Providing City & Guilds qualifications.

Confidential records used as evidence
Learners may quite appropriately cite confidential records as evidence in their qualification as long as the parent, or their advocate, has given written and informed consent for records to be used for this purpose. Where appropriate, learners should seek consent from individual children and young people.

Confidential records should never be included in learners' portfolio of evidence and should be examined in-situ by the qualified occupationally competent assessor. Assessors/learners should describe and record what evidence such documents have provided and where the evidence is located.

External Verifiers may wish to discuss such evidence with the centre as part of the verification process, but would not normally require sight of confidential records.

However, in the unlikely event that the EV should have concerns about the quality of such evidence, they will, after discussion and agreement with their lead verifier, acquaint the centre management with their concerns, and seek consent to access such records from the organisation which has responsibility for the safe keeping of the particular confidential records in question.

Images of minors being used as evidence
If videos or photographs of minors (those under 18) are used as the medium to present evidence as part of the qualifications the approved centre and the learners have responsibilities in terms of meeting child protection legislation.

It is the responsibility of the approved centre to inform the candidate of the following:
1. The need for the candidate to obtain permission from the minor’s parent/guardian prior to collecting the evidence
2. The importance of seeking consent from the children and young people concerned and their right to refuse to consent
3. The purpose of the use of photographs or video recordings
4. The period of time for which the photographs or video recordings are to be kept
5. Their obligation to keep photographs or video recordings secure from unauthorised access
6. Their obligations relating to storage of the photographs or video recordings which are kept electronically, and the associated security of using electronic systems
7. Associated child protection legislation
4 Assessment

4.1 Summary of assessment methods

This competence-based qualification is designed to be assessed in the candidate's workplace as they undertake their normal work role.

The evidence must at all times reflect the policies and procedures of the workplace as informed by current legislation, the relevant service standards and codes of practice for the sector. The majority of assessment for this competence-based qualification will take place in the workplace under real work conditions, using observations by a qualified assessor and/or testimony from an expert witness, work products etc. All the identified assessment criteria must be evidenced and a holistic approach to assessment is encouraged.

Guidance on providing evidence for the extended age ranges

This diploma applies to learners who are working with children and young people from 0-19 years. It is important to note that the requirement for the extended age range focuses on knowledge not competence. Learners need to have knowledge and understanding of children’s development 0-19 years.

Centre staff are not expected to have experience of working across this entire age range but are expected to up date their knowledge through continuing and demonstrable professional development.

Competence-based units

There will be a combination of assessment methods for this qualification which meets the requirements of the competence units. Direct observation of candidate’s performance by a qualified occupationally competent assessor and the assessor’s judgement on testimony from an Expert Witness Testimony are the main methods of assessment and main source of evidence. The evidence must at all times reflect the policies and procedures of the workplace as informed by current legislation, the relevant service standards and codes of practice for the sector.

4.2 Observation requirements

The prime source of evidence for the competency based learning outcomes within this qualification is assessor observation. Where assessor observation would be difficult because of intrusion into areas of privacy and/or because activities occur rarely, expert witnesses may provide testimony for the occupationally specific units.

Additional assessment methods or evidence sources

In addition to observation, assessors should identify an appropriate mix of other assessment methods from the list below, to ensure that all the assessment criteria are sufficiently evidenced to allow them to demonstrate the consistency of the candidate’s practice for each unit.

- **Expert witnesses** may observe candidate practice and provide testimony for competence based units. This will have parity with assessor observation for all competence based units across the qualification. If an assessor is unable to observe their candidate she/he will identify
an expert witness in the workplace, who will provide testimony of the candidate's work based performance.

- **Work products** can be any relevant products of learners' own work, or to which they have made a significant contribution, which demonstrate use and application within their practice. Please refer to section 3.3 of this document for further guidance in relation to Data Protection policy and legal requirements.

- **Professional discussion** should be in the form of a planned and structured review of learners' practice, based on evidence and with outcomes captured by means of audio/visual or written records. The recorded outcomes are particularly useful as evidence of the candidate's ability to evaluate their knowledge and practice across the qualification.

- **Candidate/ reflective accounts** describe learners' actions in particular situations and/or reflect on the reasons for practicing in the ways selected. Reflective accounts also provide evidence that learners' can evaluate their knowledge and practice across the activities embedded in this qualification.

- **Questions** asked by assessors and answered by learners to supplement evidence generated by observations and any other evidence type used. Assessors may be able to infer some knowledge and understanding from observing candidate practice. They may ask questions to confirm understanding and/or cover any outstanding areas. Questions may be asked orally or in writing but, in both cases, a record must be kept of the questions and responses.

- **Witness testimonies** should be from people who are in a position to provide evidence of candidate competence. Where testimony is sought from individuals who are service users, care should be taken to ensure the purpose of the testimony is understood and no pressure is felt to provide it.

- **Projects/Assignments** Learners may have already completed a relevant project or assignment which can be mapped to the relevant standards and therefore provide evidence. Evidence from previous training courses and/or learning programmes which they have completed and which demonstrate their professional development may also be used. Refer to section 4.6 of this document for guidance on RPL.

- **Case studies** must be based on real work practice and experiences and will need to be authenticated by an assessor if used as evidence of a competent performance. Theoretical or simulated exercises would only be admissible as evidence of knowledge and understanding.

### 4.3 Evidence requirements

#### Competence evidence requirements

Detailed additional guidance is provided on a unit basis for the use of these and all other acceptable performance assessment methods. Notes on assessment methods, evidence requirements and sources of evidence are also provided on pages 17 – 18 of this handbook.

The structure of this qualification makes it unlikely that any one assessor will have the necessary vocational competence to be able to assess every unit. Therefore the use of experts, able to contribute to candidate's assessment, will be of considerable assistance to centres in providing learners with access to those who can testify to their competence in the workplace. It may also ensure that children's/young people's privacy and confidentiality are not infringed.

Evidence of candidate performance will be derived from assessor observation and/or testimony from an expert witness of the candidate carrying out real work activities in the workplace. Assessor observation is not required for the knowledge units although knowledge can be inferred from performance.

The qualified and occupationally competent assessor or coordinating assessor will decide on the appropriateness of all evidence including expert witness testimony and on whether or not it should be included in learners' portfolios.
Regardless of the evidence source, assessment method and means of recording, the legal requirements and best practice in relation to maintaining the confidentiality and rights to dignity and privacy of children, young people and their families must be upheld.

**Knowledge evidence requirements**

If the assessor cannot positively infer the knowledge and understanding from learners’ work practice they should question the candidate or, if appropriate, use professional discussion to elicit the required knowledge. Assessors must retain records of questions and answers or the focus and outcomes of professional discussion.

Professional discussion, where used, must be conducted by learners with a qualified occupationally knowledgeable assessor. Professional discussion is most appropriately used in the qualification to elicit underpinning knowledge to explain how to deal with contingencies and clarify or expand on evidence presented in portfolios. Professional discussion must be included in learners’ assessment plans and thereby agreed in advance with learners. The assessor should not use professional discussion merely to ask a set of prescribed knowledge questions.

**4.4 Recording forms**

City & Guilds has developed these recording forms, for new and existing centres to use as appropriate. They can be copied as many times as needed. Although it is expected that new centres will use these forms, centres may devise or customise alternative forms. These must be approved for use by the external verifier, before they are used by learners and assessors at the centre. Alternatively, City & Guilds endorses a number of electronic recording systems. For details, go to the e-Portfolios page on [SmartScreen.co.uk](http://SmartScreen.co.uk).

*Forms 4, 5, 6, 7, 9, 10 and 11, or approved alternatives, are a requirement. The other forms have been designed to support the assessment and recording process.*

**Candidate and centre details (Form 1)**

Form used to record candidate and centre details, and the units/qualification(s) being assessed and details and signatures of assessor(s) and internal verifier(s). This should be the first page of the candidate portfolio.

4.5 Recognition of prior learning (RPL)

Recognition of Prior Learning (RPL) is a process of using an individual's previous achievements to demonstrate competence within QCF. This is not a new process but expands on previously described terms like “the accreditation of prior learning (APL), the recognition of experimental learning or “the validation of informal learning” by incorporating all types of prior learning and training. The Regulatory arrangements for the Qualifications and Credit Framework define RPL as follows:

A method of assessment that considers whether a learner can demonstrate that they can meet the assessment requirements for a unit through knowledge, understanding or skills they already possess and do not need to develop through a course of learning. In the context of the QCF, the definition of RPL is quite specific and relates to assessment leading to the award of credit. Assessment for RPL is conducted against the learning outcomes and assessment criteria of a unit and is subject to exactly the same quality assurance requirements as any other kind of assessment within the QCF.

‘RPL is the process of documenting, assessing, validating and certificating learning gained outside the formal education and training system’.

The RPL process is relevant where an individual has previously learnt something but has never received formal recognition for this learning through a qualification or other form of certification. Within the QCF an individual is able to ‘claim’ that he or she knows or can do something already and does not need to attend a course to learn it again. If he or she can prove this claim (through assessment of relevant evidence), then credit can be awarded for that achievement in the same way as any other credits. RPL refers to an opportunity for learners to present competence or knowledge evidence which comes from a period prior to their registration for a particular qualification. The evidence presented e.g. certificates, witness testimonies etc, will need to provide sufficient detail to allow the assessor to apply an RPL assessment process.

## Appendix 1  Relationships to other qualifications

### Links to other qualifications and frameworks

City & Guilds has identified the connections to other qualifications. This mapping is provided as guidance and suggests areas of overlap and commonality between the qualifications. It does not imply that learners completing units in one qualification are automatically covering all of the content of the qualifications listed in the mapping.

Centres are responsible for checking the different requirements of all qualifications they are delivering and ensuring that learners meet requirements of all units/qualifications. For example, units within a QCF qualification may be similar in content to units in the NQF qualification which the candidate may have already undertaken and this may present opportunities for APL/RPL.

This qualification has connections to the:
- City & Guilds Level 3 Diploma for the Children and Young People's Workforce
- City & Guilds Level 3 Certificate in Working with Parents
- City & Guilds Level 2/3 Diploma for Children's Care, Learning and Development (Northern Ireland and Wales)
- City & Guilds in Level 2/3 Award/Certificate in Supporting Teaching and Learning in Schools
