Date 19 May 2015

Dear Roberta

As a provider we PATA use the following qualifications to support our curriculum and to help learners progress onto further learning within the Children and Young People's sector:

- 600/8742/0 City & Guilds Level 1 Award in Caring for Children (QCF)
- 600/8583/6 City & Guilds Level 1 Certificate in Caring for Children (QCF)
- 600/8546/0 City & Guilds Level 1 Diploma in Caring for Children

The Award provides the skills and knowledge needed to gain a basic understanding of the Children and Young People's sector. The progression will be to either the Certificate or the Diploma in Caring for Children.

The Certificate provides the skills and knowledge needed to gain a good understanding of the Children and Young People's sector. Candidates can then progress to the Level 2 Certificate for the Children and Young People's Workforce. Some candidates may not feel ready for Level 2, suitable progression will in this case be the Diploma in Caring for Children.

The Diploma provides the skill and knowledge needed to gain an extensive understanding of the Children and Young people's sector and will lead to the Level 2 Certificate for the Children and Young People's Workforce or to the relevant Apprenticeship.

We consent to our name and logo being publically available on the City & Guilds website
