60079952 Level 3 Diploma in Site Carpentry

OVERVIEW

For those working towards a career as a trades person working with wood in the construction industry, this qualification is ideal for enhancing and specialising your skills and knowledge of site carpentry. You will learn about the industry, including the principles of constructing buildings, and about the types of information used in building design and construction. You will learn about health, safety and environmental issues faced on construction sites, and how to communicate with others on the job, including supervisory skills such as planning, organising and pricing work. You will also learn practical skills specific to specialist site carpentry, including carrying out second fixing operations, carrying out second fixing double doors and mouldings, and setting up and using fixed and transportable machinery.

This is a Framework qualification that consists of seven units of assessment.

There are no entry requirements for this qualification – it is available to anyone over the age of 16 that is interested in learning more about site carpentry. However, you are likely to hold previous qualifications, such as the Level 2 Diploma in Site Carpentry, or have significant experience working with wood with a site carpentry focus. You will be seeking to consolidate your skills and knowledge of the trade in order to progress to become a specialist in site carpentry.

WHAT COULD THIS QUALIFICATION LEAD TO?

This qualification helps prepare you for work in the construction industry, with a specific focus on site carpentry. You are likely to progress on to study the Level 3 NVQ, either as part of an apprenticeship, or as a standalone qualification.

- 600/7849/2 Level 3 NVQ Diploma in Wood Occupations (Construction)
