

# T Level Technical Qualification in Onsite Construction (8711-30)

## Employer-Set Project – Task 1.1 Research

This three hour assessment must be taken between (dd/mm/yyyy and dd/mm/yyyy)

## Task 1.1 – Research

In preparation to respond to the tender, you need to review the specification and research notifiable works covered within the project in relation to the replacement of the kitchen and bathroom.

Review the project brief and tender specification carefully before you start any research.

Areas to consider as part of your research include:

- Elements of the development work that are covered by notifiable works
- Relevant legislation and regulations covering the notifiable works
- Potential impacts of notifiable works on the project development.

Remember to keep a record of the different sources you have used.

You should collate your research notes and findings together so you can reference them as part of the next stages in this project. It is likely your research findings will be a minimum three sides of A4.

### Timing of assessment

- You will have **three hours** to conduct your research.

### Conditions of assessment

- Your research should be completed independently and working alone under supervised conditions. You will have access to the Internet to conduct your research.

### What you must submit on completion of this research task

- Research notes (approximately 3 sides of A4) and record of sources – hard copy or file saved securely (e.g. on memory stick to be handed in).

### Additional evidence of your performance that will be captured for marking

- N/A

### Maths, English and digital skills

- Through completion of this task, you will have the opportunity to generate evidence of your digital skills.
