## **60078509 Level 2 NVQ Diploma in Construction Operations and Civil Engineering Services - Construction Operations (Construction)**

### OVERVIEW

This is a work-based learning qualification that enables you to work as a construction operative within the construction industry. As a construction operative, you will lay kerbs and channels, install drainage, install structural concrete and reinstate concrete surfaces.

### ABOUT THIS QUALIFICATION

This is a Framework qualification that confirms competency in working in construction operations. You will learn how to conform to general health, safety and welfare in the workplace, how to conform to productive working practices in the workplace and how to move, handle and store resources in the workplace, as well as developing the knowledge and skills to work competently in a variety of roles in general construction operations on a construction site.

There are no entry requirements for this qualification – anyone over the age of 16 that is seeking to demonstrate competence in working in general construction operations can take this qualification.

### WHY TAKE THIS QUALIFICATION?

City & Guilds offers a Diploma at Level 2 in Construction Operations. The Diploma is taught full-time in college, whereas the level 2 NVQ is completed in the workplace (work-based learning).

You will take this Level 2 NVQ qualification if you are currently employed or have previously been employed in construction operations, and have acquired knowledge and experience over time. You now wish to demonstrate and confirm, by a formal qualification, your ability to work safely and competently to a recognised national standard for your current or a future employer.

This qualification is also available as part of an Apprenticeship Framework. You will take this qualification as part of an Apprenticeship if you are new to the construction industry. In the apprenticeship you will also need to undertake an additional knowledge-based qualification as well as be assessed in functional skills in maths and English.

### WHAT COULD THIS QUALIFICATION LEAD TO?

This qualification prepares you for work in the construction industry, with a specific focus on construction operations. Upon completion you can apply to CSCS, or other industry card schemes, to gain a skills card that will enable you to work on site in your chosen trade. If you wish to progress to become a supervisor working on site, you may wish to study any of the following qualifications:

- Level 3 NVQ Diploma in Occupational Work Supervision (Construction)
- Level 4 NVQ Diploma in Construction Site Supervision (Construction)

### WHO SUPPORTS THIS QUALIFICATION?

This qualification is widely supported in the construction sector. We are grateful to have specific support from the Federation of Master Builders for the Level 2 NVQ Diploma in Construction Operations and Civil Engineering Services - Construction Operations.
