## **60112852 City & Guilds Level 2 Diploma in Shopfitting Joinery**

### **Who is this qualification for?**

This qualification is for people who want to work as a shopfitting joiner in the construction industry. You may have completed previous qualifications in carpentry and joinery, or have some experience working within the industry as a shopfitting joiner.

This qualification is suitable for anyone from 16 years old or over.

### **What does this qualification cover?**

This qualification covers a wide range of areas skills and knowledge required for preparing to work in the construction industry.

The following topics are covered within this qualification:

- health, safety and welfare in construction
- principles of building construction
- information and communication in construction
- set up and operate a circular saw
- manufacture internal shopfitting joinery products
- manufacture external shopfitting joinery products.

### **What could this qualification lead to?**

This qualification could lead to a job as a shopfitting joiner, working for a non-domestic property refurbishing-building company, a property development company building new commercial properties.

### **Will this qualification lead to further learning?**

You could progress onto any of the following qualifications:

- Level 3 Diploma in Shopfitting Joinery
- Level 3 NVQ Diploma in Wood Occupations (Construction) – Shopfitting Site Work
- Level 3 NVQ Diploma in Occupational Work Supervision (Construction).

### **Why choose this qualification over other similar qualifications?**

This qualification covers all of the skills and knowledge you will need to work as a shopfitting joiner, and will give you a wider range of progression or employment opportunities

However, if you are a newcomer to the construction industry, you may also want to consider the Level 2 Certificate in Construction Operations - General Construction. This qualification covers a wide range of skills and knowledge to prepare learners to work in the construction industry.

Level 2 Construction qualifications are the introductory basic skills and knowledge, which may be general or may be focussed on specific trades. Level 3 Construction qualifications are recognised by the sector as providing more advanced skills and knowledge, which are also required to work in a supervisory role on a construction site

### **Who supports this qualification?**

This qualification is supported by the Federation of Master Builders.

### **This is intended for use as a Technical Certificate at Level 2.**
