

To Whom it May Concern

The British Woodworking Federation is the trade association for the woodworking and joinery manufacturing industry in the UK. It has over 500 members drawn from manufacturers, distributors and installers of timber doors, windows, conservatories, staircases, all forms of architectural joinery including shopfitting, timber frame buildings and engineered timber components, as well as suppliers to the industry.

We believe the following qualifications to be suitable for a young person between the ages of 16-19 studying full time and will give that young person an advantage when applying for a job or progressing onto an apprenticeship. Therefore the British Woodworking Federation supports the inclusion of:

600/7995/2 Level 3 Diploma in Site Carpentry

for the DfE 2016 performance tables in the Technical Level category.

We confirm that we consent to our company name (and logo) being made publicly available on the DfE and City & Guilds websites.

Yours sincerely,

Dave Campbell
Marketing & Training Manager
