What do these qualifications cover?	<p>These qualifications cover areas such as communication, reading and writing, mathematics, developing skills for independent living, developing skills for the workplace, or engaging with the world around you. Providers will be able to select a package of units appropriate to the needs of the individual learner.</p>
What opportunities for progression are there?	<p>Learners will be able to develop knowledge and/or skills to operate independently and effectively in life, learning and work.</p> <p>These qualifications offer an Award, Certificate and Diploma in the Foundation Learning Tier.</p>
Who did we develop the qualifications with?	<p>These qualifications were developed in association with Mencap, a leading Learning Disability organisation; it contains units that have been developed by other Awarding Organisations.</p>
Is it part of an apprenticeship framework or initiative?	N/A

Structure

In the interests of flexibility for learners, there are no mandatory units within the Personal Progress qualification. Learners are free to adopt a "pick and mix" approach of unit choices providing they select units that will satisfy the number of credits required to achieve the qualification.

To achieve the **City & Guilds Entry Level 1 Award in Personal Progress**, learners must achieve a minimum of 8 to 13 credits from units 001 - 032.

To achieve the **City & Guilds Entry Level 1 Certificate in Personal Progress**, learners must achieve a minimum of 14 to 36 credits from units 001 - 032.

To achieve the **City & Guilds Entry Level 1 Diploma in Personal Progress**, learners must achieve a minimum of 37 or more credits from units 001 - 032.

The table below illustrates the unit titles and the credit value

Total Qualification Time (TQT)

Total Qualification Time (TQT) is the number of notional hours which represents an estimate of the total amount of time that could reasonably be expected for a learner to demonstrate the achievement of the level of attainment necessary for the award of a qualification.

TQT consists of the following two elements:

- 1) the number of hours that an awarding organisation has assigned to a qualification for guided learning
- 2) an estimate of the number of hours a learner will reasonably be likely to spend in preparation, study or any other form of participation in education or training, including assessment, which takes place as directed by – but, unlike guided learning, not under the immediate guidance or supervision of – a lecturer, supervisor, tutor or other appropriate provider of education or training.

City & Guilds Entry Level 1 Certificate in Personal Progress	140	140

2 Centre requirements

Approval

Full approval

To offer these qualifications, new centres will need to gain both centre and qualification approval. Please refer to the document **Centre Approval Process: Quality Assurance Standards** for further information.

Centre staff should familiarise themselves with the structure, content and assessment requirements of the qualification before designing a course programme.

Resource requirements

Physical resources and site agreements

As these qualifications focus on 'learning by doing' rather than 'learning about', few activities should be class based. The qualifications should be delivered in the settings that are most appropriate to the learner. Wherever possible, real and relevant settings and resources that motivate should be used.

As many of the learners may have limited literacy and numeracy skills, resources need to be available to enable learners to demonstrate their ability through carrying out practical tasks rather than writing about them. For example, learners who have difficulty with reading and writing should not be asked to complete worksheets as evidence for their Personal Progress portfolios.

Centre staffing

Staff delivering these qualifications must be able to demonstrate that they meet the following occupational expertise requirements. They should:

- be occupationally competent or technically knowledgeable in the area(s) for which they are delivering training and/or have experience of providing training (this knowledge must be to the same level as the training being delivered)
- have recent relevant experience in the specific area they will be assessing
- have credible experience of providing training.

Continuing professional development (CPD)

Centres are expected to support their staff in ensuring that their knowledge remains current of the occupational area and of best practice in delivery, mentoring, training, assessment and quality assurance, and that it takes account of any national or legislative developments.

Quality assurance

Approved centres must have effective quality assurance systems to ensure optimum delivery and assessment of qualifications. Quality assurance includes initial centre approval, qualification approval and the centre's own internal procedures for monitoring quality. Centres are responsible for internal quality assurance and City & Guilds is responsible for external quality assurance. All external quality assurance processes reflect the minimum requirements for verified and moderated assessments, as detailed in the Centre Assessment Standards Scrutiny (CASS), section H2 of Ofqual's General Conditions. For more information on both CASS and City & Guilds Quality Assurance processes visit: the [**What is CASS?**](#) and [**Quality Assurance Standards**](#) documents on the City & Guilds website.

Standards and rigorous quality assurance are maintained by the use of:

- Internal quality assurance
- City & Guilds external quality assurance.

In order to carry out the quality assurance role, Internal Quality Assurers must

- have appropriate teaching and vocational knowledge and expertise
- have experience in quality management/internal quality assurance
- hold or be working towards an appropriate teaching/training/assessing qualification
- be familiar with the occupation and technical content covered within the qualification.

External quality assurance for the qualification will be provided by City & Guilds EQA process. EQAs are appointed by City & Guilds to approve centres, and to monitor the assessment and internal quality assurance carried out by centres. External quality assurance is carried out to ensure that assessment is valid and reliable, and that there is good assessment practice in centres.

The role of the EQA is to:

- provide advice and support to centre staff
- ensure the quality and consistency of assessments and marking/grading within and between centres by the use of systematic sampling
- provide feedback to centres and to City & Guilds.

Learner entry requirements

City & Guilds does not set entry requirements for these qualifications. However, centres must ensure that candidates have the potential and opportunity to gain the qualification successfully.

As part of the assessment for this qualification, learners must have access to resources that enable learners to demonstrate their ability through carrying out practical tasks rather than writing about them.

Age restrictions

This qualification is approved for learners of all ages

Access arrangements and reasonable adjustments

City & Guilds has considered the design of these qualifications and their assessments in order to best support accessibility and inclusion for all learners. We understand however that individuals have diverse learning needs and may require reasonable adjustments to fully participate. Reasonable adjustments, such as additional time or alternative formats, may be provided to accommodate learners with disabilities and support fair access to assessment.

Access arrangements are adjustments that allow candidates with disabilities, special educational needs, and temporary injuries to access the assessment and demonstrate their skills and knowledge without changing the demands of the assessment. These arrangements must be made before assessment takes place.

The Equality Act 2010 requires City & Guilds to make reasonable adjustments where a disabled person would be at a substantial disadvantage in undertaking an assessment.

It is the responsibility of the centre to ensure at the start of a programme of learning that candidates will be able to access the requirements of the qualification.

Please refer to the JCQ access arrangements and reasonable adjustments and Access arrangements - when and how applications need to be made to City & Guilds for more information. Both are available on the **[City & Guilds website](#)**

3 Delivering the qualification

Initial assessment and induction

An initial assessment of each learner should be made before the start of their programme to identify:

- if the learner has any specific training needs
- support and guidance they may need when working towards their qualifications
- any units they have already completed or credit they have accumulated which is relevant to the qualification
- the appropriate type and level of qualification.

We recommend that centres provide an induction programme so the learner fully understands the requirements of the qualifications, their responsibilities as a learner and the responsibilities of the centre. This information can be recorded on a learning contract.

Inclusion and diversity

City & Guilds is committed to improving inclusion and diversity within the way we work and how we deliver our purpose which is to help people and organisations develop the skills they need for growth.

More information and guidance to support centres in supporting inclusion and diversity through the delivery of City & Guilds qualifications can be found here:

[Inclusion and diversity | City & Guilds \(cityandguilds.com\)](#)

Sustainability

City & Guilds are committed to net zero. Our ambition is to reduce our carbon emissions by at least 50% before 2030 and develop environmentally responsible operations to achieve net zero by 2040 or sooner if we can. City & Guilds is committed to supporting qualifications that support our customers to consider sustainability and their environmental footprint.

More information and guidance to support centres in developing sustainable practices through the delivery of City & Guilds qualifications can be found here:

[Our Pathway to Net Zero | City & Guilds \(cityandguilds.com\)](#)

Centres should consider their own carbon footprint when delivering this qualification and consider reasonable and practical ways of delivering this qualification with sustainability in mind. This could include:

- reviewing purchasing and procurement processes (such as buying in bulk to reduce the amount of travel time and energy, considering and investing in the use of components that can be reused, instead of the use of disposable or single use consumables)
- reusing components wherever possible
- waste procedures (ensuring that waste is minimised, recycling of components is in place wherever possible)
- minimising water use and considering options for reuse/salvage as part of plumbing activities wherever possible.

4 Assessment

Assessment of the qualification

The entry level 1 units in this handbook encompass 'pre-entry' and what is currently known as 'entry 1' in the NQF. This will encourage learners from this level to progress to Entry 2, 3 and beyond, as appropriate. Each unit is accompanied by guidance to give the centre some idea of the range of ways in which the learners working at different stages on the continuum could meet the assessment criteria. Please refer to the **Qualification guidance** for more information on using the achievement continuum and Unit Transcript which can be found at www.cityandguilds.com

Evidence requirements

Evidence requirements for the qualification are focused on the assessor gathering evidence through observation of practical tasks and activities. Learners must demonstrate that they can meet the criteria as outlined in each of the units. Knowledge based items will be assessed through questioning by the assessor and discussion. The evidence collated should determine how we know that the learner has met the criteria. Within the additional guidance notes there are some suggestions for where alternatives may be used.

Photos may be used to supplement the evidence where there is a need eg it will benefit the learner's memory/understanding of what they have learnt.

Assessment strategy

Units are assessed through a portfolio of evidence.

Portfolio of evidence

Candidate and centres may decide to use a paper-based or electronic method of recording evidence.

City & Guilds endorses several ePortfolio systems, including our own, **Learning Assistant**, an easy-to-use and secure online tool to support and evidence candidates' progress towards achieving qualifications. Further details are available at www.cityandguilds.com/eportfolios.

City & Guilds has developed a set of **recording forms** including examples of completed forms for new and existing centres to use as appropriate. Recording forms are available on the City & Guilds website.

Although new centres are expected to use these forms, centres may devise or customise alternative forms, which must be approved for use by the external quality assurers, before they are used by candidates and assessors at the centre. Amendable (MS Word) versions of the forms are available on the City & Guilds website.

*Forms 3, 4, 5, 6 and 7 or approved alternatives, are requirements. The other forms have been designed to support the assessment and recording process.

Candidate and centre details (Form 1)

Form used to record learner and centre details, and the units/qualification(s) being assessed and details and signatures of assessor(s) and internal verifier(s).

This should be the first page of the learner portfolio.

Initial and Baseline Learning Profile (Form 2)

Form used to record the initial assessment of learner's learning and development needs and goals.

Assessment plan, review and feedback (Form 3)*

Form used to record unit assessment plans, reviews and feedback to the learner. The form allows for a dated, ongoing record to be developed.

Performance evidence record (Form 4)*

Form used to record details of activities observed, witnessed or for which a reflective or self account has been produced. For some, a customised alternative record may be provided in the qualification handbook.

Evidence location sheet (Form 5)*

Form used to identify what requirements each piece of evidence covers and where it is located, including questioning records which are held elsewhere (for example, because they were conducted online).

Unit assessment and verification declaration (Form 6)*

Form used on completion of each unit to meet the QCA requirement for a statement on authenticity. If this form is not used, there must be a written declaration, at unit level, signed by the assessor and the learner, that the evidence is authentic and that the assessment was conducted under the specified conditions or context. (See Ensuring Quality, ref 5.4, page 28.)

Summary of unit and qualification achievement (Form 7)*

Form used to record the learner's on-going completion of units and progress to final achievement of the complete unit and/or qualification.

Please photocopy the forms as required.

Learner Transcript (Form 8)

Centres are required to complete a transcript for each unit achieved by the learner. Where units are only available at the application stage of the continuum, centres will not be required to use the learner transcript.

City & Guilds endorses several ePortfolio systems. Further details are available at:
www.cityandguilds.com/eportfolios.

Time constraints

Candidates must finish their assessment within the period of registration. Centres should advise candidates of any internal timescales for the completion and marking of individual assignments.

Qualification registration is valid for 60 months.

Recognition of prior learning (RPL)

Recognition of prior learning means using a person's previous experience or qualifications which have already been achieved to contribute to a new qualification.

RPL is allowed and is not sector-specific.

5 Units

Structure of the units

These units each have the following:

- City & Guilds reference number
- title
- level
- credit value
- unit aim
- assessment and grading
- guided learning hours (GLH)
- learning outcomes, which are comprised of a number of assessment criteria
- notes for guidance

Guidance for delivery of the units

These qualifications comprise a number of **units**. A unit describes what is expected of a competent person in particular aspects of their job.

Each **unit** is divided into **learning outcomes** which describe in further detail the skills and knowledge that a candidate should possess.

Each **learning outcome** has a set of **assessment criteria** (performance and knowledge and understanding) which specify the desired criteria that must be satisfied before an individual can be said to have performed to the agreed standard.

Unit 001

Developing communication skills

Level:	Entry 1
GLH:	30
Credit value:	3
Aim:	This unit aims to provide learners working within Entry 1 (but not able to access the Functional Skills in English at E1) with the opportunity to have recognised their achievements in relation to developing communication skills.

Learning outcomes

There are **three** learning outcomes to this unit. The learner will be able to:

1. Listen and respond to other people
2. Speak (or use other means) to communicate with other people
3. Engage in discussion with other people

Error! Use the Home tab to apply H1 Unit to the text that you want to appear here.

Outcome 2 Speak (or use other means) to communicate with other people

Assessment Criterion

The learner can:

1.1 Show understanding in his/her response to what they have heard

Possible ways of demonstrating that the criterion has been met

- single word, sign or symbol responses to key words in context
- responding to simple prompts, questions, requests and instructions
- demonstrably paying attention
- answering simple questions about a range of personal information
- listening to and following brief narratives

In the earlier stages of the continuum, learners will be responding to familiar people. In the later stages, they will begin to respond to those they do not know well or even to those that they are meeting for the first time.

Error! Use the Home tab to apply H1 Unit to the text that you want to appear here.

Notes for guidance

This guidance is intended to provide assessors with an indication of the range of ways in which learners might meet the assessment criteria. These responses in turn will be embedded in a variety of contexts/learning opportunities. The degree of achievement is most likely to relate to the supported participation to application stages on the achievement continuum.

The examples provided are just that; learners may demonstrate their ability to meet the criteria in many other ways. Learners are certainly not expected to undertake all these activities in order to meet the assessment criteria.

Unit 024

Dealing with problems

Level:	Entry 1
GLH:	40
Credit value:	4
Aim:	This unit aims to provide learners working within Entry 1 (although not usually at the earliest stages of the level) with the opportunity to have recognised their achievements in relation to recognising when problems arise and developing approaches to resolving problems.

Learning outcomes

There are **two** learning outcomes to this unit. The learner will be able to:

1. Be aware of problems when they arise
2. Come up with a solution to a problem

Error! Use the Home tab to apply H1 Unit to the text that you want to appear here.

Outcome 0

Assessment Criterion

The learner can:

1.2 Recognise when they have a problem

Possible ways of demonstrating that the criterion has been met

- Demonstrating an awareness of change in their environment (e.g. a cup is not where it usually is)
- Repeated attempts (not necessarily successful) to do something (e.g. trying to reach or grasp an object)
- Acknowledging that there is a problem to solve when it is pointed out to them (e.g. when asked 'are you stuck?')
- Communicating verbally or otherwise that they don't know what to do next
- Acknowledging that they need a strategy (not necessarily of their own devising) in order to move forwards or resolve a situation (e.g. by seeking out a staff member to demonstrate that they can't get something to work)
- Stating verbally or otherwise that they have a problem

Error! Use the Home tab to apply H1 Unit to the text that you want to appear here.

Outcome 5 Show some response to reading

Assessment Criteria

The learner can:

2.1 Identify sources of help

2.2 Select a solution

Possible ways of demonstrating that the criterion has been met for 1.1

- Accepting help from familiar people (e.g. teachers, peers, family members)
- Recognising familiar people as sources of help
- Understanding that help can be provided through different means (e.g. people, help lines, websites, leaflets)
- Finding out about agencies and external bodies that can provide help (e.g. Connexions, a GP, an advocacy group)
- With support, matching agencies and external bodies of key significance to themselves to the kinds of help they can provide (e.g. a health visitor to a new parent)

Possible ways of demonstrating that the criterion has been met for 1.2

- Demonstrating an awareness of cause and effect of their own actions (e.g. by throwing an object to attract attention)
- Listening and responding to suggested solutions
- Being prompted to suggest solutions (not all of which will be appropriate)
- Choosing an appropriate solution from a set of given alternatives, independently or with prompting
- Copying the actions of others to see if they can be used to solve their particular problem, not always successfully
- Recognising the similarities between one situation and another when they are pointed out and with prompting recalling the solution to the previous problem (e.g. responding accurately to the questions 'What did you do when you lost your coat? Would it be a good idea to go to lost property to look for your bag?')
- Suggesting a workable solution to a straightforward problem (not necessarily the most appropriate)
- Understanding simple explanations as to why one suggested solution might be more appropriate than another (e.g. asking a warden for the spare keys is a more appropriate solution to the problem of being locked out than calling emergency services)
- Identifying an appropriate solution by recalling what they did in a previous, similar situation (e.g. remembering what they did last time they got lost at college)

The amount of guidance and prompting is likely to increase in proportion to the complexity of the problem that the learner is trying to solve. In many cases, the solution will be to seek help. This assessment criterion is therefore closely linked to the criterion above.

Appendix 1 Relationship to other qualifications

Functional Skills (England only)

The Key Skills qualifications are expected to be phased out in England from 2010, and will be largely replaced by the Functional Skills awards. More information about these qualifications is available from www.cityandguilds.com/functionalskills.

Appendix 2 Sources of general information

The following documents contain essential information for centres delivering City & Guilds qualifications. They should be referred to in conjunction with this handbook. To download the documents and to find other useful documents, go to the **Centre document library** on **www.cityandguilds.com** or click on the links below:

Centre Handbook: Quality Assurance Standards

This document is for all approved centres and provides guidance to support their delivery of our qualifications. It includes information on:

- centre quality assurance criteria and monitoring activities
- administration and assessment systems
- centre-facing support teams at City & Guilds/ILM
- centre quality assurance roles and responsibilities.

The Centre Handbook should be used to ensure compliance with the terms and conditions of the centre contract.

Centre Assessment: Quality Assurance Standards

This document sets out the minimum common quality assurance requirements for our regulated and non-regulated qualifications that feature centre-assessed components. Specific guidance will also be included in relevant qualification handbooks and/or assessment documentation.

It incorporates our expectations for centre internal quality assurance and the external quality assurance methods we use to ensure that assessment standards are met and upheld. It also details the range of sanctions that may be put in place when centres do not comply with our requirements or actions that will be taken to align centre marking/assessment to required standards. Additionally, it provides detailed guidance on the secure and valid administration of centre assessments.

Access arrangements: When and how applications need to be made to City & Guilds provides full details of the arrangements that may be made to facilitate access to assessments and qualifications for candidates who are eligible for adjustments in assessment.

The **Centre document library** also contains useful information on such things as:

- conducting examinations
- registering learners
- appeals and malpractice.
