

Level 2 Technical Certificate in Plastering -Solid (7908-006)

Assessment Pack

Sample Synoptic Assignment

General guidance for candidates

General guidance

This is a formal assessment that you will be marked and graded on. You will be marked on the quality and accuracy of your practical performance and the written work you produce. It is therefore important that you carry your work out to the highest standard you can. How well you know and understand the subject, and how you have used your knowledge and skills together to complete the tasks must be clear to the marker. This means you will have to explain your thinking and the reasons behind the way you have carried out the tasks and how/why you have made your decisions within your written work eg as part of your planning, reflections, or evaluations.

Plagiarism

This is an assessment of your abilities, so the work must be all your own work and carried out under the conditions stated. You will be asked to sign a declaration that you have not had any help with the assessment.

Your tutor is allowed to give you some help understanding the assignment instructions if necessary, but they will record any other guidance you need and this will be taken into account during marking.

Plagiarism is the failure to acknowledge sources properly and/or the submission of another person's work as if it were your own. Plagiarism is not allowed in this assignment.

Where research is allowed, your tutor must be able to identify which work you have done yourself, and what you have found from other sources. It is therefore important to make sure you acknowledge all sources and clearly reference any information taken from them.

Timings and planning

Where you have to plan your time, you should take care to make sure you have divided the time available between tasks appropriately. In some assignments, there are specified timings which cannot be changed and which need to be taken into account. You should check your plan is appropriate with your tutor.

If you have a good reason for needing more time, you will need to explain the reasons to your tutor and agree a new deadline date. Changes to dates will be at the discretion of the tutor, and they may not mark work that is handed in after the agreed deadlines.

Health and Safety

You must always work safely, in particular while you are carrying out practical tasks.

You must always follow any relevant Health and Safety regulations and codes of practice.

If your tutor sees you working in a way that is unsafe for yourself or others, they will ask you to stop immediately, and tell you why. Your tutor will not be able to continue the assessment until they are sure you are ready for assessment and can work safely.

Presentation of work

Presentation of work must be neat, legible and appropriate to the task.

You should make sure that each piece of evidence including any forms are clearly labelled with your name and the assignment reference.

Assignment Brief

A customer requires various plastering work to be carried out on their property in order to upgrade and modernise and has agreed for you to carry out the first phase.

He has instructed you to carry out plastering work as the wall surfaces have different problems and require renovating using different plastering systems.

One of the internal walls is external and has cold surfaces and mould growth. In order to reduce this and eliminate the problem the wall surface is to be dry lined direct bond using a performance wallboard.

You will be required to set out and install the plasterboard using a direct bond method to a solid background including the pillar and return. Refer to the specification and drawings in Figure 1, 2 and 3 for dimensions.

The other problem is on the kitchen wall, where the plaster has blown. It needs renovating with a modern premixed solid two-coat plaster, which is to be refitted with kitchen cupboards and shelving.

You will be required to apply a suitable solid pre blended gypsum backing and setting coat plaster system. You will need to form the corners and stop ends using appropriate beads.

Refer to the specification and drawings in Figure 4 and 5 for guidance.

The second phase will include external rendering work and re-laying a floor screed. The customer requires your advice on different systems that could be used and has requested that you provide them with a proposal to help them determine which system to select.

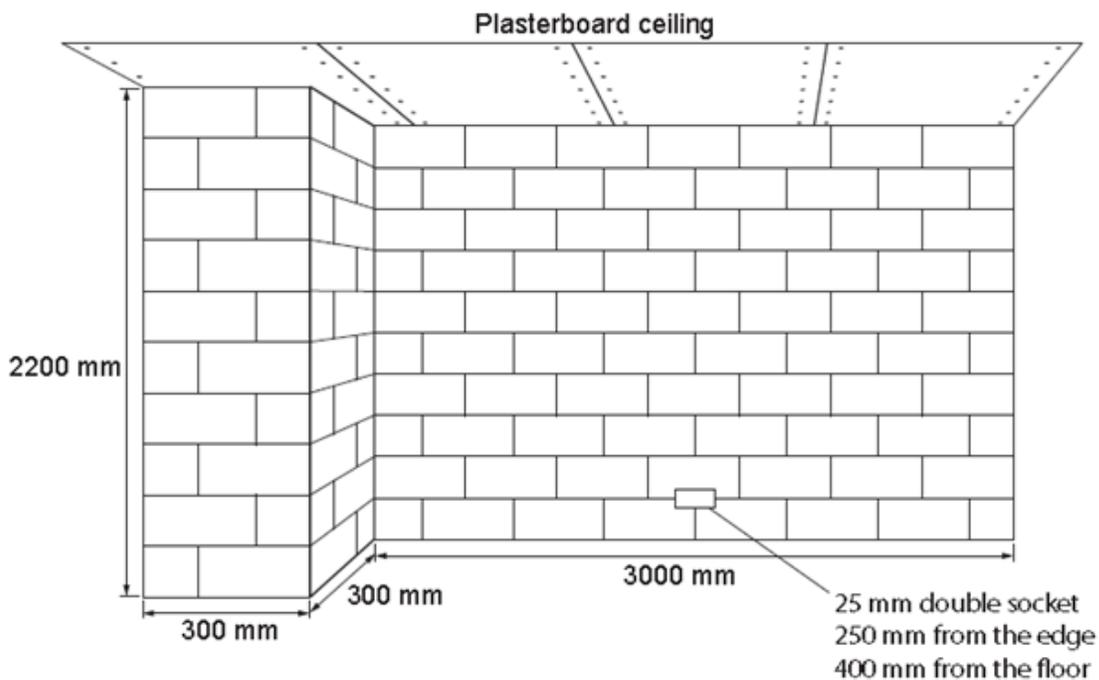

Figure 2 Setting out for dry lining direct bond

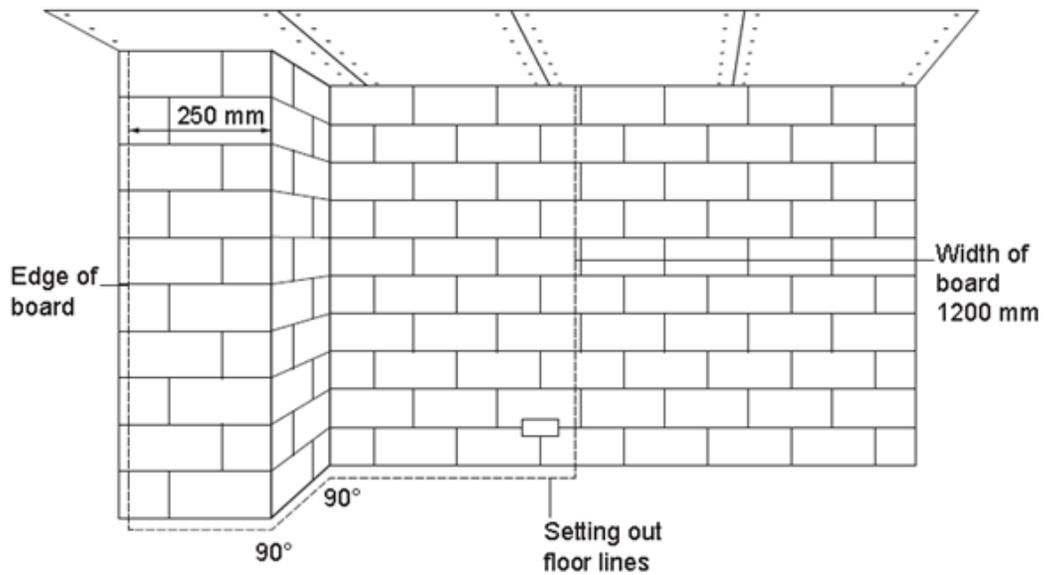

Figure 3 Install dry lining direct bond and beads

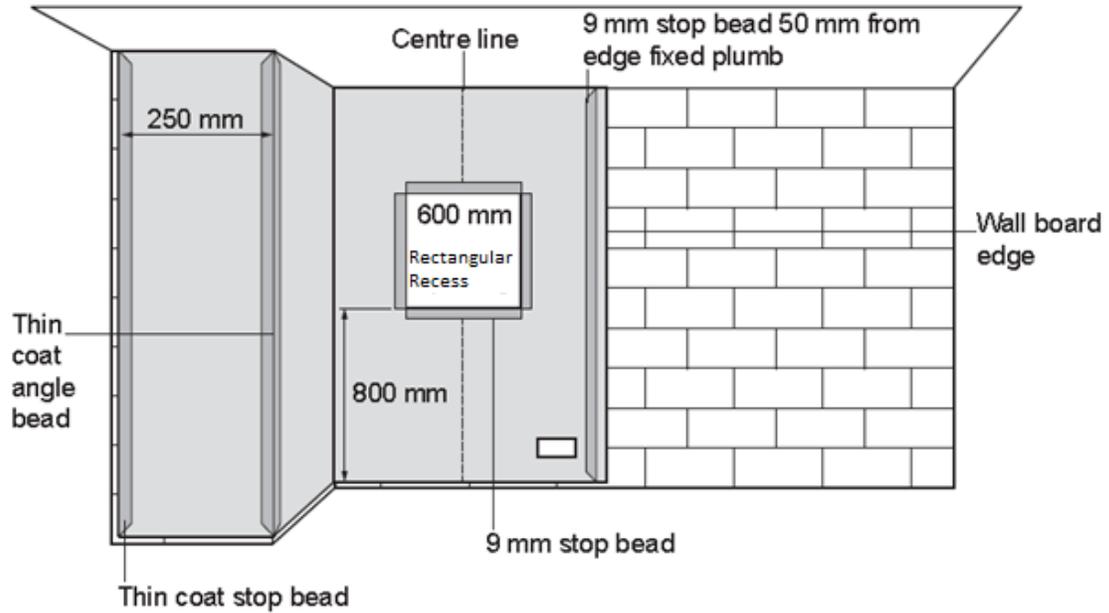

Figure 4 Apply floating coat

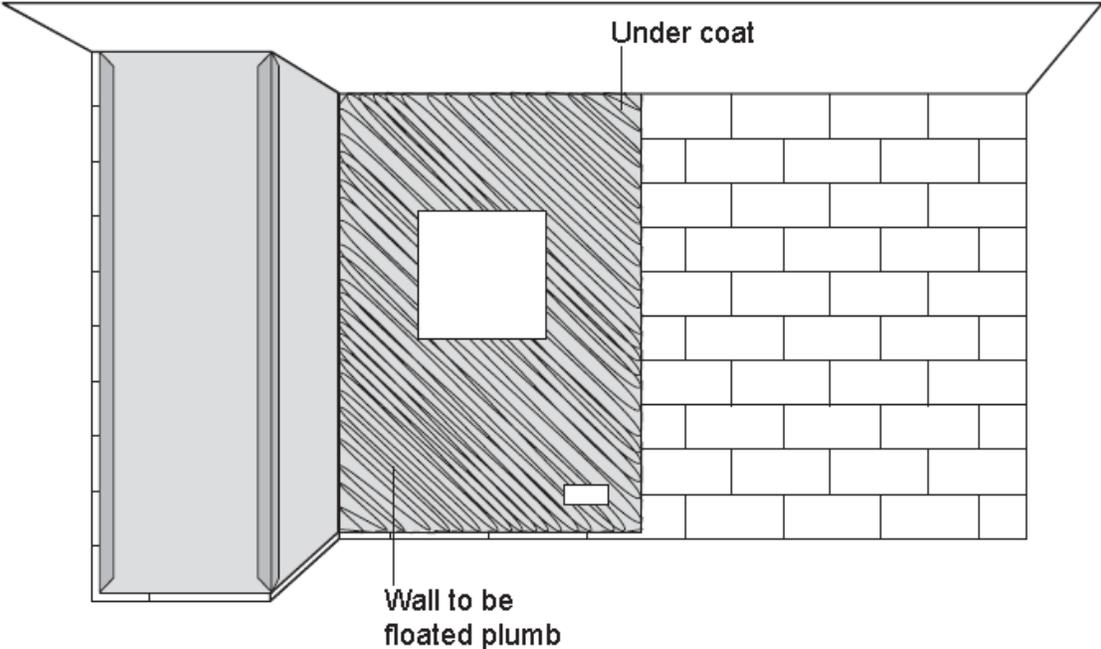

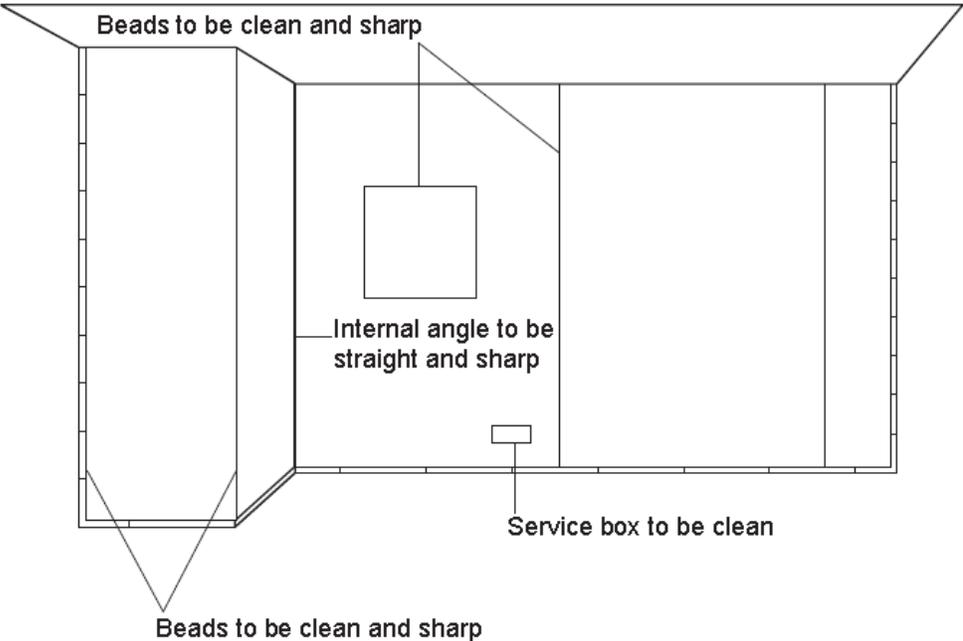

Figure 5 Apply setting coat

Tasks

Task 1

1a Produce a tools and equipment list.

1b Install plasterboards and beads

Conditions of assessment:

The task should be carried out working alone under supervised conditions. You must work safely at all times. If for any reason your assessor feels you are working in an unsafe manner, the assessment will be stopped with immediate effect.

What must be produced for marking and submitted for moderation (if applicable):

- tools and equipment list
- installed plasterboards to backgrounds
- beads fixed in position.

Additional evidence of your performance that must be captured for marking and submitted for moderation (if applicable):

- your tutor's notes, recorded on a Practical Observation form, of your working practice describing the quality, consistency and accuracy of the finished work
- photographs should be taken by your assessor at the following stages:
 - installed plaster boards to background and beads fixed in position.

Task 2

Applying a float and setting coat

Conditions of assessment:

The task should be carried out working alone under supervised conditions. You must work safely at all times. If for any reason your assessor feels you are working in an unsafe manner, the assessment will be stopped with immediate effect.

What must be produced for marking and submitted for moderation (if applicable):

- completed floating coat
- completed setting coat.

Additional evidence of your performance that must be captured for marking and submitted for moderation (if applicable):

- your tutor's notes, recorded on a Practical Observation form, of your working practice describing the quality, consistency and accuracy of the finished work
- photographs should be taken by your assessor at the following stages:
 - completed plastered surface.

Task 3

Produce a proposal document for the customer to help them select a rendering system and a floor system.

Conditions of assessment:

The task should be carried out working under supervision of the tutor and must be your own work.

What must be produced for marking and submitted for moderation (if applicable):

- proposal document, including images, sketches and drawings.

Task instructions for centres

Candidates must have access to a suitable range of resources to carry out the tasks and, where appropriate, to have the opportunity to choose materials demonstrating the ability to select from a range of appropriate materials. The centres need to provide a suitable working bay per learner with a minimum wall width of 1500 mm, a return pillar, and a pre-boarded ceiling with a minimum height of 2200 mm. The wall should be finished to allow for a 125 mm skirting. A suitable cutting and mixing area must also be provided.

Task specific guidance

Task 1

The centre must supply the candidates with the specification and Figures 1 – 3 found in this assessment pack to complete the task.

Material specification:

- dry wall adhesive
- wall boards 2.400 mm x 1.200 mm x 12.5 mm
- 10 mm stop beads
- thin coat stop bead
- thin coat angle bead

Task 2

The centre must supply the candidates with the specification and Figures 4 – 5 found in this assessment pack to complete the task. **Task 2 must be completed over the Task 1 surface once Task 1 has been assessed.**

Material specification:

- self-adhesive scrim
- gypsum premixed undercoat plaster
- multi finish setting plaster.

All work carried out should be undertaken in a safe manner and completed to industry standards.

Task 3 and 4

The centre must provide suitable IT equipment to carry out the research and complete the task whilst supervising the candidate. The proposal must be the candidates own work and must be completed on a word document. It is advised that these tasks are carried out after the practical tasks.

Time

The following timings are provided to support centre planning.

Total 22 hours

Task 1 – 4 hours (recommended)

Task 2 – 6 hours (recommended)

Task 3 – 6 hours (recommended)

Task 4 – 6 hours (recommended)

Centre guidance

Guidance provided in this document supports the administration of this assignment. The following documents available on the City & Guilds website provide essential generic guidance for centres delivering Technical qualifications and **must** be referred to alongside this guidance:

- **Technical qualifications – marking**
- **Technical qualifications – moderation** (updated annually)
- **Technical qualifications – teaching, learning and assessment**

This synoptic assessment is designed to require the candidate to make use their knowledge, understanding and skills they have built up over the course of their learning to tackle problems/tasks/challenges.

This approach to assessment emphasises to candidates the importance and applicability of the full range of their learning to practice in their industry area, and supports them in learning to take responsibility for transferring their knowledge, understanding and skills to the practical situation, fostering independence, autonomy and confidence.

Candidates are provided with an assignment brief. They then have to draw on their knowledge and skills and independently select the correct processes, skills, materials, and approaches to take to provide the evidence specified by the brief.

During the learning programme, it is expected that tutors will have taken the opportunity to set shorter, formative tasks that allow candidates to be supported to independently use the learning they have so far covered, drawing this together in a similar way, so they are familiar with the format, conditions and expectations of the synoptic assessment.

Candidates should be made aware during learning what the Assessment Objectives are and how they are implemented in marking the assignment, so they will understand the level of performance that will achieve them high marks.

Candidates should not be entered for the assessment until the end of the course of learning for the qualification so they are in a position to complete the assignment successfully.

Health and safety

Candidates should not be entered for assessment without being clear of the importance of working safely, and practice of doing so. The tutor must immediately stop an assessment if a candidate works unsafely. At the discretion of the tutor, depending on the severity of the incident, the candidate may be given a warning. If they continue to work unsafely however, their assessment must be ended and they must retake the assessment at a later date.

Compliance with timings

The timings provided are estimates to support centre planning. They refer to assessment time, not any additional setting up the centre needs to carry out to create the required to ensure an appropriate assessment environment.

It is the centre's responsibility to plan sufficient assessment sessions, under the appropriate conditions, within the assignment window, to allow candidates reasonable time to complete the assessment tasks.

Where candidates are required to plan their work they should have their plans confirmed for appropriateness in relation to the time allocated for each task.

Candidates should be allowed sufficient time to fully demonstrate the range of their skills, however this also needs to be reasonable and practicable. Candidates should be allowed to overrun their planned timings or professional service times (where they exist) in order for evidence of a range of their skills to be captured. If however, the time required exceeds reasonably set assessment periods, or the tolerance suggested for professional service times, the centre may stop the assessment and base the marking on the evidence up to that point, including the tutor's notes of how far over time the task has taken.

Observation evidence

Where the tutor is required to carry out observation of performance, detailed, descriptive notes must be recorded on the practical observation (PO) form provided. The centre has the flexibility to adapt the form, to suit local requirements (eg to use tablet, hand-written formats, or to ease local administration) as long as this does not change or restrict the type of evidence collected.

The number of candidates a tutor will be able to observe at one time will vary depending on:

- the complexity of evidence collection for the task
- local conditions eg layout of the assessment environment,
- amount of additional support available (eg to capture image/ video evidence), staggered starts etc,
- whether there are any peak times where there is a lot of evidence to collect that will need additional support or any that are quieter.

It is advisable to trial the planned arrangements where possible during formative assessment, reviewing the quality of evidence captured and manageability. It is expected that for straight forward observations, (and unless otherwise specified) no more than eight candidates will be observed by a single tutor at one time, and the number will usually be fewer than this maximum. The key factor to consider is the logistics of collecting sufficient evidence.

As far as possible, candidates should not be distracted, or their performance affected by the process of observation and evidence collection.

Observation notes form part of the candidate's evidence and must describe **how well** the activity has been carried out, rather than stating the steps/ actions the candidate has taken. The notes must be very descriptive and focus on the **quality** of the performance in such a way that comparisons between performances can be made. They must provide sufficient, appropriate evidence that can be used by the marker (and moderator) to mark the performance using the marking grid.

Identifying **what it is** about the performances that is **different** between candidates can clarify the qualities that are important to record. Each candidate is likely to carry out the same steps, so a checklist of this information would not help differentiate between them. However qualitative comments on **how well** they do it, and quantitative records of accuracy and tolerances would.

The tutor should refer to the marking grid to ensure appropriate aspects of performance are recorded. These notes will be used for marking and moderation purposes and so must be **detailed, accurate** and **differentiating**.

Tutors should ensure that any required additional supporting evidence including eg photographs or video can be easily matched to the correct candidate, are clear, well-lit and showing the **areas of particular interest** in **sufficient detail** and **clarity** for assessment (ie taken at appropriate points in production, showing accuracy of measurements where appropriate).

If candidates are required to work as a team, each candidate's contribution must be noted separately. The tutor may intervene if any individual candidate's contribution is unclear or to ensure fair access (see below).

The **Technical qualifications guides on marking and moderation** are essential guidance documents and are available on the City & Guilds website. These provide further information on preparing for assessment, evidence gathering, standardisation, marking and moderation, and must be referred to when planning and carrying out assessment.

Minimum evidence requirements for marking and moderation

The sections in the assignment:

- **What you must produce for marking**, and
- **Additional evidence of your performance that must be captured for marking**

list the minimum requirements of evidence to be submitted for marking and the moderation sample.

Evidence produced during assessment above and beyond this may be submitted, as long as it provides useful information for marking and moderation and has been produced under appropriate conditions.

While technological methods which support the capturing or creating of evidence can be helpful, eg pinboard style websites for creating mood boards, the final evidence must be converted to a suitable format for marking and moderation which cannot be lost/ deleted or amended after the end of the assessment period (eg screen prints, pdf files). Considerations around tracking authenticity and potential loss of material hosted on such platforms during assessment is the centre's responsibility.

Where candidates have carried out some work as a group, the contribution of each candidate must be clear. It is not appropriate to submit identical information for each candidate without some way for the marker and moderator to mark the candidates individually.

Note: Combining candidates' individual pieces of evidence into single files or zip files may make evidence management during internal marking more efficient and will greatly simplify the uploading of the moderation sample.

Where the minimum requirements have **not been submitted** for the moderation sample by the final moderation deadline, or the **quality of evidence is insufficient** to make a judgement, the moderation, and therefore any subsequent adjustment, will be based on the evidence that *has* been submitted. **Where this is insufficient to provide a mark on moderation, a mark of zero may be given.**

Preparation of candidates

Candidates should be aware of which aspects of their performance (across the AOs) will give them good marks in assessment. This is best carried out through routinely pointing out good or poor performance during the learning period, and through formative assessment.

During the learning programme, direct tutor instruction in how to tackle practical tasks through modelling, support, guidance and feedback are critical. However gradual removal of this support is necessary in preparation for summative assessment. This, supported approach is **not** valid for summative assessment.

The purpose of summative assessment is to confirm the standard the candidate has reached as a result of participating in the learning process. Candidates should be encouraged to do the best they can and be made aware of the difference between these summative assessments and any formative assessments they have been subject to. Candidates may not have access to the full marking grids, as these may be misinterpreted

as pass, merit distinction descriptors. Refer to the **Technical qualifications – teaching, learning and assessment** centre guidance document, available on the City & Guilds website for further information on preparing candidates for Technical qualification assessment.

Guidance on assessment conditions

The assessment conditions that are in place for this synoptic assignment are to:

- ensure the rigour of the assessment process
- provide fairness for candidates
- give confidence in the outcome.

They can be thought of as the rules that ensure that all candidates who take an assessment are being treated fairly, equally and in a manner that ensures their result reflects their true ability.

The conditions outlined below relate to this summative synoptic assignment. These do not affect any formative assessment work that takes place, although it is advised that candidates are prepared for the conditions they will need to work under during summative assessment.

The evidence for the tasks that make up this synoptic assignment must be completed under the specified conditions. This is to ensure authenticity and prevent malpractice as well as to assess and record candidate performance for assessment in the practical tasks. Any aspect that may be undertaken in unsupervised conditions is specified. It is the centre's responsibility to ensure that local administration and oversight gives the tutor sufficient confidence to be able to confirm the authenticity of the candidate's work.

Security and authentication of candidate work

Candidate evidence must be kept secure to prevent unsupervised access by the candidate or others. Where evidence is produced over a number of sessions, the tutor must ensure learners and others cannot access the evidence without supervision. This might include storing written work or artefacts in locked cupboards and collecting memory sticks of evidence produced electronically at the end of each session.

Candidates are required to sign declarations of authenticity, as is the tutor. The relevant form is included in this assignment pack and must be signed after the production of all evidence.

Where the candidate or tutor is unable to, or does not confirm authenticity through signing the declaration form, the work will not be accepted at moderation and a mark of zero will be given. If any question of authenticity arises eg at moderation, the centre may be contacted for justification of authentication.

Accessibility and fairness

Where a candidate has special requirements, tutors should refer to the *Access arrangements and reasonable adjustments* section of the City & Guilds website.

Tutors can support access where necessary by providing clarification to **any** candidate on the requirements or timings of any aspect of this synoptic assignment. Tutors should **not** provide more guidance than the candidate needs as this may impact on the candidate's grade, see the guidance and feedback section below.

All candidates must be provided with an environment, time frame and resources that allows them reasonable access to the full range of marks available.

Where candidates have worked in groups to complete one or more tasks for this synoptic assessment, the tutor must ensure that no candidate is disadvantaged as a result of the performance of any other team member. If a team member is distracting or preventing another team member from fully demonstrating their skills or knowledge, the tutor must intervene.

Guidance and feedback

To support centre file management, tutors may specify a suitable file format and referencing format for evidence (unless otherwise specified eg if file naming is an assessment point for the assignment). Guidance must only support access to the assignment and must not provide feedback for improvement. The level and frequency of clarification & guidance must be

- recorded fully on the candidate record form (CRF),
- taken into account along with the candidate's final evidence during marking
- made available for moderation.

Tutors **must not** provide feedback on the quality of the performance or how the quality of evidence can be improved. This would be classed as malpractice.

Tutors **should** however provide general reminders to candidates throughout the assessment period to check their work thoroughly before submitting it, and to be sure that they are happy with their final evidence as it may not be worked on further after submission.

Candidates can rework any evidence that has been produced for this synoptic assignment during the time allowed. However, this must be as a result of their own review and identification of weaknesses and not as a result of tutor feedback. Once the evidence has been submitted for assessment, no further amendments to evidence can be made.

Tutors **should** check and be aware of the candidates' plans and designs to ensure management of time and resources is appropriate, and so any allowed intervention can take place at an appropriate time.

Tutors **should** ensure that candidates' plans for completion of the tasks distribute the time available appropriately and may guide candidates on where they should be up to at any point in a general way. Any excessive time taken for any task should be recorded and should be taken into account during marking if appropriate.

It is up to the marker to decide if the guidance the candidate has required suggests they are lacking in any AO, the severity of the issue, and how to award marks on the basis of this full range of evidence. The marker must record where and how guidance has had an impact on the marks given, so this is available should queries arise at moderation or appeal.

What is, and is not, an appropriate level of guidance

- A tutor **should intervene with caution** if a candidate has taken a course of action that will result in them not being able to submit the full range of evidence for assessment. However, this should **only** take place once the tutor has prompted the candidate to check that they have covered all the requirements. Where the tutor has to be explicit as to what the issue is, this is likely to demonstrate a lack of understanding on the part of the candidate rather than a simple error, and full details should be recorded on the CRF.
- The tutor **should not** provide guidance if the candidate is thought to be able to correct the issue without it, and a prompt would suffice. In other words, only the minimum support the candidate actually needs should be given, since the more tutor

guidance provided, the less of the candidate's own performance is being demonstrated and therefore the larger the impact on the marks awarded.

- A tutor **must not** provide guidance that the candidate's work is not at the required standard or how to improve their work. In this way, candidates are given the chance to identify and correct any errors on their own, providing valid evidence of knowledge and skills that will be credited during marking.
- The tutor **must not** produce any templates, pro-formas, work logs etc unless instructed to in the assignment guidance. Where instructed to do so, these materials must be produced as specified and contain no additional guidance. Templates provided as part of the assignment should be used as provided, and not adapted.

All specific prompts and details of the nature of any further guidance must be recorded on the relevant form and reviewed during marking and moderation.

Guidance on marking

Please refer to the ***Technical qualifications – marking, and - moderation*** centre guidance documents for further information on gathering evidence suitable for marking and moderation, and on using the marking grid and forms.

The candidate record form (CRF) is used to record:

- Details of any guidance or the level of prompting the candidate has received during the assessment period
- Rough notes bringing together relevant evidence from across tasks during marking.
- Summary justifications when holistically coming to an overall judgement of the mark.

The practical observation form (PO) is used to record:

- Descriptive information and evidence of candidate performance during an observation. Although descriptions of the quality of performance should support decisions against the AOs, the notes should follow the flow of the observation, rather than attempting to assign evidence against the AOs at this point.

Marking grid

For any category, 0 marks may be awarded where there is no evidence of worthy achievement.

%	Assessment Objective	Band 1 descriptor Poor to limited	Band 2 descriptor Fair to good	Band 3 descriptor Strong to excellent
10	AO1 Recall of knowledge relating to the qualification LOs <ul style="list-style-type: none"> • Does the candidate seem to have the full breadth and depth of taught knowledge across the qualification to hand? • How accurate is their knowledge? Are there any gaps or misunderstandings evident? • How confident and secure does their knowledge seem? 	<p style="text-align: center;">(1-2 marks)</p> <p>Recall shows some weaknesses in breadth and/or accuracy. Hesitant, gaps, inaccuracy.</p>	<p style="text-align: center;">(3-4 marks)</p> <p>Recall is generally accurate and shows reasonable breadth. Inaccuracies and misunderstandings are infrequent and usually minor. Sound, minimal gaps.</p>	<p style="text-align: center;">(5-6 marks)</p> <p>Consistently strong evidence of accurate and confident recall from the breadth of knowledge. Accurate, confident, complete, fluent.</p>
<p>Examples of types of knowledge expected: interpreting information sources in relation to planning and carrying out the tasks i.e specifications/drawings/manufacturers information.</p>				
		<p>The candidate has demonstrated limited recall of knowledge, but it has been limited and/or showing hesitancy on all aspects and needs prompting when interpreting technical information relating to the task/s.</p>	<p>The candidate has demonstrated a good recall of knowledge but is hesitant on minor aspects when interpreting technical information relating to the task/s.</p>	<p>The candidate has demonstrated in-depth and detailed knowledge, showing a higher degree of confidence and understanding when interpreting technical information relating to the task/s.</p>

20	AO2 Understanding of concepts, theories and processes relating to the LOs <ul style="list-style-type: none"> Does the candidate make connections and show causal links and explain why? How well are theories and concepts applied to new situations/ the assignment? How well are exemplars chosen – how well do they illustrate the concept? 	(1-4 marks) Some evidence of being able to give explanations of concepts and theories. Explanations appear to be recalled, simplistic or incomplete. Misunderstanding, illogical connections, guessing.	(5-8 marks) Explanations are logical. Showing comprehension and generally free from misunderstanding, but may lack depth or connections are incompletely explored. Logical, slightly disjointed, plausible.	(9-12 marks) Consistently strong evidence of clear causal links in explanations generated by the candidate. Candidate uses concepts and theories confidently in explaining decisions taken and application to new situations. Logical reasoning, thoughtful decisions, causal links, justified.
		Examples of understanding expected: select appropriate materials, tools, equipment and PPE to set out and undertake the task; follow the correct sequence of work.		
		Shows a limited understanding of plastering methods, techniques and resources. Drawings/specifications not clearly interpreted and understood. To access higher marks Hesitant when identifying and selects majority of the appropriate materials, tools and equipment to undertake the task/s.	Shows a good understanding of plastering methods, techniques and resources. Drawings/specifications generally interpreted and understood. To access higher marks Identifies and selects the majority of the appropriate materials, tools and equipment to undertake the task/s.	Shows consistent, confident and accurate understanding of plastering methods, techniques and resources. Drawings/specifications interpreted and clearly understood. To access higher marks Confidently identifies and selects appropriate materials, tools and equipment to undertake the task/s.

40	AO3 Application of practical/ technical skills <ul style="list-style-type: none"> • How practiced/fluid does hand eye coordination and dexterity seem? • How confidently does the candidate use the breadth of practical skills open to them? • How accurately/ successfully has the candidate been able to use skills/achieve practical outcomes? 	(1-8 marks) Some evidence of familiarity with practical skills. Some awkwardness in implementation, may show frustration out of inability rather than lack of care. Unable to adapt, frustrated, flaws, out of tolerance, imperfect, clumsy.	(9-16 marks) Generally successful application of skills, although areas of complexity may present a challenge. Skills are not yet second nature. Somewhat successful, some inconsistencies, fairly adept/ capable.	(17-24 marks) Consistently high levels of skill and/or dexterity, showing ability to successfully make adjustments to practice; able to deal successfully with complexity. Dextrous, fluid, comes naturally, skilled, practiced.
		Examples of skills expected: practical techniques to include: setting out, measuring, cutting, scribing, positioning and installing, levelling, plumbing, preparing, gauging and mixing, applying, ruling, fixing, squaring, rasping, keying and cutting back. Producing different surface finishes. Adherences to tolerances.		
		Work not completed within the given timescale. Some elements of the task not attempted. Practical skills are demonstrated to a poor standard. Majority of measurements are inaccurate. No tolerances met. To access higher marks Demonstrates some professional techniques when performing set tasks.	All work planned, attempted and completed within given timescale. Practical skills are demonstrated to an acceptable standard. Majority of measurements are mostly accurate. Some tolerances met. To access higher marks Demonstrates good professional techniques a majority of the time when performing set tasks.	All work planned, attempted and completed within given timescale. Practical skills are demonstrated to a high standard. All measurements are accurate. All tolerances met. To access higher marks Fully demonstrates consistent professional techniques when performing set tasks.

20	AO4 Bringing it all together - coherence of the whole subject <ul style="list-style-type: none"> • Does the candidate draw from the breadth of their knowledge and skills? • Does the candidate remember to reflect on theory when solving practical problems? • How well can the candidate work out solutions to new contexts/problems on their own? 	(1-4 marks) Some evidence of consideration of theory when attempting tasks. Tends to attend to single aspects at a time without considering implication of contextual information. Some random trial and error, new situations are challenging, expects guidance, narrow. May need prompting.	(5-8 marks) Shows good application of theory to practice and new context, some inconsistencies. Remembers to apply theory, somewhat successful at achieving fitness for purpose. Some consolidation of theory and practice.	(9-12 marks) Strong evidence of thorough consideration of the context and use of theory and skills to achieve fitness for purpose. Purposeful experimentation, plausible ideas, guided by theory and experience, fit for purpose, integrated, uses whole toolkit of theory and skills.
		Examples of bringing it all together: interpreted and demonstrated knowledge, understanding and skill to carry out the tasks, planned activities in a logical and timely manner, materials and application techniques used appropriately and correctly, safe and clean working practices demonstrated throughout.		

		<p>There is limited evidence of the candidate using their knowledge, understanding and skills to complete the tasks.</p> <p>Tasks are not planned, prepared or completed to the specification.</p> <p>Choices and decisions have been poorly informed, showing little consideration before being implemented.</p> <p>To access higher marks Some decisions are indecisive when planning and finishing the activities within the task/s.</p>	<p>The candidate brings together their knowledge, understanding and skills well in order to complete the tasks.</p> <p>Most tasks are planned, prepared and completed to the specification, but may have some errors.</p> <p>Choices and decisions have been inconsistently informed, considered and implemented.</p> <p>To access higher marks Majority of decisions are decisive when planning and finishing the activities within the task/s.</p>	<p>The candidate has made excellent use of their knowledge, understanding and skills across the tasks.</p> <p>Tasks are methodically planned, prepared and completed to the specification.</p> <p>Choices and decisions have been well informed, considered and implemented.</p> <p>To access higher marks Made decisive decisions when planning and finishing the activities within the task/s.</p>
10	<p>AO5 Attending to detail/ perfecting</p> <ul style="list-style-type: none"> Does the candidate routinely check on quality, finish, etc. and attend to imperfections/ omissions How much is accuracy a result of persistent care and attention (eg measure twice, cut once)? Would you describe the candidate as a 	<p>(1-2 marks)</p> <p>Easily distracted or lack of checking. Insufficiently concerned by poor result; little attempt to improve. Gives up too early; focus may be on completion rather than quality of outcome.</p> <p>Careless, imprecise, flawed, uncaring, unfocussed, unobservant, unmotivated.</p>	<p>(3-4 marks)</p> <p>Aims for satisfactory result but may not persist beyond this. Uses feedback methods but perhaps not fully or consistently.</p> <p>Variable/intermittent attention, reasonably conscientious, some imperfections, unremarkable.</p>	<p>(5-6 marks)</p> <p>Alert, focussed on task. Attentive and persistently pursuing excellence. Using feedback to identify problems for correction.</p> <p>Noticing, checking, persistent, perfecting, refining, accurate, focus on quality, precision, refinement, faultless, meticulous.</p>
		<p>Examples of attending to detail: Considerations for following trades. Wall surface area inline, even, uniform and defect free. Angles, reveals and soffits are square and marginable and inline. Beads: fixed, plumb, level, inline and intersect with no steps. Services, ceiling lines, wall lines, internal and external angles, skirting lines are clean. Beads left clean. Correct waste disposal.</p>		

	perfectionist and wholly engaged in the subject?	There is limited attention to detail/appearance. Rarely checks that work is accurate, clean and defect free. Work produced to a poor standard. Poor housekeeping. Poor consideration for other trades.	There is good attention to detail/appearance. Inconsistently checks that work is accurate, clean and defect free. Work produced to an adequate standard. Good housekeeping. Some consideration for other trades.	There is excellent attention to detail/ appearance. Consistently and carefully double checks that work is accurate, clean and defect free. Work produced to a high standard. Excellent housekeeping with minimal waste. Excellent consideration for other trades.

Practical Observation Form (PO)

Candidate Name:
Candidate Number:
Date:

Assessment ID:
Centre Number

The evidence section in this PO form should consist of comments/notes that are used to record the **qualities and details** of performance to inform marking and moderation against the AOs; what is the candidate doing? How well are they performing? - Describe the evidence.

The form signposts how particular AO's are relevant to each task. These AO's are not a definitive list therefore if evidence for other AO's can be captured this should be recorded accordingly.

This PO form should **not be used** to assign marks per task as marks need to be applied holistically for each AO across all tasks within the assignment. *Use the Candidate Record Form (CRF) to record the final overview of the quality of performance and the overall marks for each AO.*

This form should, along with all other candidate evidence, should be uploaded to the Moderation Portal if requested or as part of a sample.

See the Observation section above for details around the types of comments

Task 1

Information around tolerances can be found at the end of the PO form.

Contextualised examples of AOs per task	Comments/notes
Set out to install plasterboards AO1 – interpreting information sources in relation to planning and carrying out the tasks i.e specifications/drawings.	

<p>A02 – select appropriate materials, tools, equipment and PPE to set out and undertake the task; follow the correct sequence of work.</p> <p>A03 – practical techniques to include: setting out, measuring, squaring,</p>	
<p>Installed plasterboards</p> <p>A01 – interpreting information sources in relation to planning and carrying out the tasks i.e specifications/drawings.</p> <p>A02 – select appropriate materials, tools, equipment and PPE to set out and undertake the task; follow the correct sequence of work.</p> <p>A03 – practical techniques to include: measuring, squaring, gauging and mixing, preparing, cutting, rasping, positioning and installing, fixing, plumbing, ruling and finishing.</p> <p>A04 – interpreted and demonstrated knowledge, understanding and skill to carry out the tasks, planned activities in a logical and timely manner, materials and application techniques used appropriately and correctly, safe and clean working practices demonstrated throughout.</p> <p>A05 – Angles and reveals are square and marginable and inline. Services are clean. Wall surface area inline and defect free. Tolerances met. Correct waste disposal.</p>

Task 2

Information around tolerances can be found at the end of the PO form.

Contextualised examples of AOs per task	Comments/notes
<p>Applied floating coat</p> <p>AO1 – interpreting information sources in relation to planning and carrying out the tasks i.e specifications/drawings/ manufacturers information.</p> <p>AO2 – select appropriate materials, tools, equipment and PPE to set out and undertake the task; follow the correct sequence of work.</p> <p>AO3 – practical techniques to include: gauging and mixing, applying, ruling and keying.</p> <p>AO4 – interpreted and demonstrated knowledge, understanding and skill to carry out the tasks, planned activities in a logical and timely manner, materials and application techniques used appropriately and correctly, safe and clean working practices demonstrated throughout.</p> <p>AO5 – considerations for following trades. Beads: fixed, plumb, level, inline and intersect with no steps. Wall surface area inline, square, marginable, even, uniform and defect free. Correct waste disposal. Tolerances met.</p>	

Applied and finished setting coat

AO1 – interpreting information sources in relation to planning and carrying out the tasks i.e specifications/drawings/ manufacturers information.

AO2 – select appropriate materials, tools, equipment and PPE to set out and undertake the task; follow the correct sequence of work.

AO3 – practical techniques to include: gauging and mixing, applying and finishing.

AO4 – interpreted and demonstrated knowledge, understanding and skill to carry out the tasks, planned activities in a logical and timely manner, materials and application techniques used appropriately and correctly, safe and clean working practices demonstrated throughout.

AO5 – considerations for following trades. Angles are square and marginable and inline. Services, ceiling lines, wall lines, internal and external angles, skirting lines are defect free and clean. Wall surface area inline, even, uniform and defect free. Correct waste disposal. Tolerances met.

Tolerances

The following tolerances should be considered when marking the candidate's work. See the Marking Grid for details around how many marks to allocate for meeting or not meeting tolerances.

Tolerances for Task 1

- setting out of wall floor lines to allow for appropriate dab thickness ± 3 mm
- cutting out of service box in correct position ± 5 mm
- dry wall dabs applied to correct centres including perimeter seal formed
- installation of wall boards plumb ± 3 mm
- installation of wallboard joints with gaps no more than 5 mm
- setting out of rectangular base line to form recess ± 3 mm
- setting out of recess ± 3 mm for each side
- stop beads meet at each corner of recess ± 3 mm
- cutting and fixing of stop beads to form a rectangular recess ± 3 mm for each stop bead
- thin coat stop bead fixed in line with arris allowing even coverage to both sides of return
- fixing of thin coat stop bead from fixed thin coat angle bead ± 3 mm equal margin along its length
- all areas adequately reinforced with self-adhesive scrim

Tolerances for Task 2

- application and ruling of undercoat ± 3 mm

Centres should refer to the drawings in Figures 6 – 11 for information on expected outcomes of the Tasks. **These drawings must not be disclosed to the learners.**

Plaster to be applied evenly using two coats**

Candidate Record Form (CRF)

Candidate Name:
Candidate Number:

Assessment ID:
Centre Number:

Total Mark:

All evidence across the assignment must be considered together when recording the mark given for each AO. Justifications for the awarded marks must be recorded below.

	Summary justification	AO Mark
A01 Recall		
A02 Understanding		
A03 Practical/ technical skills		
A04 Bringing it all together		
A05 Attention to detail

Declaration of Authenticity

Candidate name

Candidate number

Centre name

Centre number

Candidate:

I confirm that all work submitted is my own, and that I have acknowledged all sources I have used.

Candidate signature

Date

Tutor:

I confirm that all work was conducted under conditions designed to assure the authenticity of the candidate's work, and am satisfied that, to the best of my knowledge, the work produced is solely that of the candidate.

Tutor signature

Date

Note:

Where the candidate and/or tutor is unable to, or does not confirm authenticity through signing this declaration form, the work will not be accepted at moderation and a mark of zero will be given. If any question of authenticity arises, the tutor may be contacted for justification of authentication.
