9673-212 Working with external contractors	✓	(Part) 202 Level 2 Principles of building construction, information and communication	

Other resources-

City & Guilds House

Another resources available on the Construction SmartScreen platform is the City & Guilds House. OUR HOUSE is a valuable teaching and learning resource which allows construction methods and techniques to be taught and explained in a new way.

In a three-dimensional virtual environment, the structure of OUR HOUSE can be examined, dismantled and modified to enhance understanding of the subject matter being delivered.

Invest a small amount of time to get a glimpse of what is contained in the model and you may well be tempted to make your own modifications for specific teaching and learning sessions.

Centre Document Library

The City & Guilds / ILM Centre document library can be found at www.cityandguilds.com/delivering-our-qualifications/centre-development/centre-document-library

This is a resource area designed for our centres and has practical guidance information to help you with every aspect of running our qualifications.

The guidance covers everything from initial approval and centre charges, malpractice, to learner exam administration, policies and procedures.
