	Key features	Key benefits
Structure	Learners must complete 4 mandatory units and a minimum of 38 credits from the optional units, including: emerging technologies, network routing, programming, website design and software applications testing.	Our vast range of optional units allows you to tailor content to suit learners' individual needs, whilst meeting the occupational requirements of the ICT and Telecoms industry. Learners may wish to focus on network, software, systems or telecoms specific units for their chosen career path.
Assessment	Assessment will include centre devised tasks, Vendor certification, City & Guilds set assignments or a portfolio of evidence either in the work place or as part of work simulated activities - depending on the unit.	The assessment methods reflect the expectation of independent working for learners at this level. Recognition of certification from leading ICT Vendors and the opportunity for centres to develop real work tasks, ensure that assessment meets the needs of the industry.
Support	Our support resources include: a free Qualification Handbook and personal support.	<p>The Qualification Handbook provides the requirements of the qualification including the Rules of Combination of units and the Outcome and Assessment Criteria for each unit.</p> <p>Personal support is available from the largest team of subject specific Quality Consultants, our Customer Relations Team and dedicated Business Managers.</p>

Reasons to choose City & Guilds	
Widest range and choice of qualifications	We are a market-leading awarding organisation for qualifications in ICT and Telecoms for both users and professionals. Learners can progress to this qualification from Level 3 ICT Professional qualifications or Advanced Apprenticeship.
Industry expertise	We have worked in partnership with training providers, industry experts and other stakeholders, such as Microsoft and Cisco to ensure that our qualifications provide relevant, work-ready skills.
Recognised by employers	Our qualifications are trusted and valued both by experts and employers across the ICT and Business industry which will help you to engage with employers and provide learners with the skills and training that will allow them to succeed in employment.
