About this document
This assignment comprises all of the assessment for Level 2 Working with computerised accounting software (7266-027).

Health and safety
You are asked to consider the importance of safe working practices at all times.

You are responsible for maintaining the safety of others as well as your own. Anyone behaving in an unsafe fashion will be stopped and a suitable warning given. You will not be allowed to continue with an assignment if you compromise any of the Health and Safety requirements. This may seem rather strict but, apart from the potentially unpleasant consequences, you must acquire the habits required for the workplace.

Time allowance
The recommended time allowance for this assignment is 2 hours.

Candidates are advised to read all instructions carefully before starting work and to check with your assessor, if necessary, to ensure that you have fully understood what is required.
Level 2 Working with computerised accounting software (7266-027)
Candidate instructions

Time allowance: 2 hours

Assignment set up:

This assignment is broken down into 11 parts:

1. A brief scenario.
2. Task A requires candidates to log onto and prepare a PC and prepare a printer and stationery
3. Task B requires candidates to input customer and supplier invoices and credit notes.
4. Task C requires candidates to produce sales and purchase reports
5. Task D requires candidates to enter customer receipts and supplier payments
6. Task E requires candidates to produce customer and supplier reports
7. Task F requires candidates to enter transactions into the nominal ledger
8. Task G requires candidates to produce reports and transaction details
9. Task H requires candidates to use audit tools and management controls
10. Task I Contains is an additional task which should be completed if time permits*
11. Task J requires candidates to log off and close down the computer

Note: It is important that you complete task J irrespective of whether other tasks are complete. Five minutes before the completion time for this examination, candidates who have not already done so are required to start work on task J

*Task I is intended to enable exceptional candidates to demonstrate their ability and to achieve a higher grade.
Candidates who do not complete Task I, but complete the remaining tasks correctly and accurately can achieve a pass or credit or distinction grade for this assessment.
Scenario

It is early June.

You have recently found employment with Cellini Arts Ltd, a small specialised art dealer. You are responsible for the accounting functions of the company which sells art to individuals, large corporate and stately homes. You are also responsible for requesting any stationery supplies and consumables.

New accounting software has been purchased and installed. It is your role to use the software to record all transactions and produce reports when required.

The software has been installed and some accounting policies, including coding structures have been defined within the company. Some accounts for the nominal ledger, customers and suppliers have been set up. The financial year started on 1st May and data relating to May transactions has already been entered onto the system.

There are a number of transactions to enter on the system. Your manager has defined the tasks which he sees as a priority. He has marked these tasks as tasks A to H and he would like you to try to complete these tasks. If, when you have completed these tasks accurately, you still have time, he would like you to complete task I.

**When you have completed as much work as you are able, you must complete task J which involves shutting down the machine and taking a backup of your work.**

The tasks set by your line manager are as follows:

**Task A**

1. Power up the computer.
2. Access the accountancy software package.
3. Log on using the password provided.
4. Check that there is a printer available for use.
5. Check that suitable stationery is available for use with the software.
6. Ensure that you have a suitable storage medium for backup purposes.
7. Your line manager has sent to you two memos asking for information.

The memos are shown over the page. Write a brief response to each of his queries in the response area.
MEMO 1

I’m meeting our insurers tomorrow. Can you brief me please on the ways in which we can back up and store our accounts data to avoid loss through carelessness or accident.

RW

RESPONSE

MEMO 2

I’d like to look at the possibility of improving the presentation of the documents that we send to customers like remittance advices and debt chasing letters. Can you explain in a few lines if this is possible in our accounting system and what it involves? Also can we also produce our own special reports to supplement the one we presently get from the system?

RW

RESPONSE
**Task B**

1. You receive the memo below. Create accounts for the new customers using suitable customer codes.

   You should use the existing scheme which uses the first three characters of the customers' name followed by 001 or, if that code is already in use, use the next available number in the series (001…002…003 etc).

   **MEMO 3**

</tr>
</tbody>
</table>

This invoice was coded to Sales of Oriental Art and it should have been coded to Sale of Repair Services. In the work you do in June, will you please correct the error.

Thanks
RW
